We would like to welcome the following new Field Investigators: Brian and Theresa Seech, Carol Sutley, Brian and Judith McKnight, and Alex Broskey. They bring our total Investigative Staff to 19. We have 5 people taking their test and hope to bring them aboard in the New Year.

PA MUFON has investigated 293 cases to date and the month isn't over yet, and we are still in the top 10 in CMS. These numbers would not be possible if it had not been for the hard work and dedication of our Field Investigator. As Chief Investigator for PA MUFON I could not be any prouder of these folks. They are not paid for their time or expenses and yet excel in all they set out to do. They are truly professionals in every sense of the word.

I would also like to thank our Field Investigators in the Philadelphia Metro, 5 county area, FI Bob Gardner and FI Elisa Simon for their untiring efforts in handling the Bucks County UFO Flap. Well Done!

The New Year brings new reports, investigations, conferences and awareness days, along with new members. I know Director John Ventre, and myself are looking forward to the exciting prospects coming our way this New Year.

We would also like to wish a Happy Holiday Season to all the groups we work with in the State of Pennsylvania and outside the state:
