164 5. On 27 August 1948, Sergeant [REDACTED] Uniontown Police Department, residing at [REDACTED], Uniontown, Pennsylvania, was interviewed. The informant supplied the following signed statement, the original of which is marked (Exhibit III).

a. Uniontown, Pa., 8-27-48. To whom it may concern: On the night of June 29th about 11:00 P.M. I noticed an object in flight that resembled a half of a large meat platter. This object appeared in the west end of the city at Oakland Avenue and West Main Street. Seemed to be at a height of about 6000 feet and sailed on a straight line of about 8 or 9 hundred feet in about 5 to 7 seconds. This object was illuminated. Weather conditions partly cloudy. Mrs. Hollar a neighbor called my attention to the object as she and Mrs. McDonald had saw two previous to the one I saw. There was no sound no rays connected to the object. It was flying North East. Signed: [REDACTED] and Daughter [REDACTED].

164 6. On 27 August 1948, Mrs. [REDACTED] housewife, and widow of the late [REDACTED], residing at [REDACTED], Uniontown, Pennsylvania, was interviewed. The informant supplied the following signed statement, the original of which is marked (Exhibit IV).

b. To whom it may concern: On the night of 29 June 1948 at Eleven P.M., I was sitting on my front porch when suddenly I noticed a very peculiar sight. At around 5,000 Feet I saw a luminous oval shaped object flying through the air. It was travelling very fast and seemed to just disappear within ten seconds. I called Mrs. [REDACTED] and her daughter [REDACTED] attention to it. We saw three of the same objects at approximately five minute intervals. After seeing the second one we called it to Police Sergeant [REDACTED] and Daughter [REDACTED] attention. They saw the third one. It was a very beautiful sight. As the second one flew across the sky a flash of lightning could be seen through the object. It seemed to be transparent. I would say the weather at that time was stormy and cloudy. But, the object was beneath the base of the clouds. There was no odor or sound from it. However, it had a trail of light about a yard long attached to it. It rolled vertically on its edge not flat. Looked something like this: (See (Exhibit IV)). Spinning on and across the sky. Travelled from Southwest to Northeast. I saw it disappear behind the houses across the street from where I am sitting. - Signed: Mrs. Catherine McDonald.

64 7. On 27 August 1948, [REDACTED] housewife, residing at [REDACTED], Uniontown, Pennsylvania, was interviewed. The informant supplied the following signed

DECLASSIFICATION AUTHORITY: [REDACTED]  
DOD DIR 5200.2

SUJD: Project "SIGN"

UNCLASSIFIED August 1948

statement, the original of which is marked (Exhibit V).

a. To whom it may concern: At approximately eleven P.M. on the twenty-ninth of June of this year Mrs. [REDACTED] called my attention to a luminous flying object sailing through the air. I was just walking up the steps to her porch, paying her a visit. I saw exactly the same thing Mrs. [REDACTED] saw. A very pretty sight it was. Looked like an oval shaped platter rolling along on its edge. It must have been going very fast because it disappeared almost five to ten seconds from the time I first noticed it. It was without sound or odor but it seemed to have a tail on it about a yard or so in length. Looked like a luminous plate or meat platter. I saw all 3 of them at five minute intervals. Sergeant [REDACTED] of the Police Department and his daughter [REDACTED] saw the third one. I would say these flying objects came from the Southwest and flew to the Northeast. The weather was cloudy with lightning and rolling thunder. In fact, it had been stormy most of that afternoon and evening. The objects flew over around the Oakland Street area or just this side of it which would be East of Oakland Street. They travelled about 1,000 feet before they disappeared behind the houses across the street from us. - Signed: [REDACTED].

b. On 27 August 1948, Mr. [REDACTED], Senior Airways Traffic Controller, at Pittsburgh Allegheny County Airport, was interviewed. The informant supplied the following information. No scheduled, commercial airline or military traffic pass over the area in question. Connellsville Airport, a small "P" field, from which light, privately owned aircraft are operated, is located on the right side of the Northeast leg of the Morgantown, West Virginia, range station on Airway Blue 39. This area is also outside of the Reserve Training flying areas for Greater Pittsburgh Airport. Therefore, base aircraft would not be operated over the city of Uniontown, Pennsylvania.

c. On 27 August 1948, Captain Samuel F. Freeland, Forecaster, assigned to the 102nd Weather Group, 10th Weather Detachment, at Greater Pittsburgh Airport, Coraopolis, Pennsylvania, was interviewed. The informant supplied true copies of two (2) teletyped weather sequences for 29 June 1948, marked (Exhibit VI).

d. Reference paragraph 5 c., basic letter, there are no activities geographically located in or near Uniontown, Pennsylvania.

# Air Force Asks P-G For Flying Disc Data

*Lieutenant on Trail of Aviating Saucers  
Sighted Near Uniontown on June 30*

The high cost of flying saucers was demonstrated here Friday when a flying second lieutenant of the United States Air Force dropped into the Post-Gazette editorial room on the trail of some aviating discs sighted near Uniontown on June 30.

Lieutenant Wallace Shirey's errand was obviously important enough to call for a commissioned second lieutenant, though ordinarily it would appear a mess sergeant would be more ideal as a hunter of flying crockery.

#### Running Down Discs

Lieutenant Shirey flew into the Post-Gazette local room on instruments, and shyly explained that he was spending a chunk of the tax-payers' dough in running down the Uniontown skyights.

A mental computation by a reporter suggested that far from being a joke, flying saucers were pretty expensive. For every skybound plate there seems to be a relentless second lieutenant assigned as permanent Nemesis.

Lieutenant Shirey displayed a photostatic copy of a story concerning the Uniontown discs. He did not explain why the Air Force waited two months before investigating the June 30 highjinx at Uniontown.

The celestial Specie was sighted near Uniontown by Mrs. Margaret Holtar, Charles Schuh and Mrs. Catherine MacDonald and her daughter, Catherine. The display was over the Pittsburgh road sector on June 30, the 35th Wednesday in that month.

The occurrence of the 35th Wednesday did not inspire any of the awestruck observers to quote "What is so rare as a day in June." A day in February is the answer.

#### Photographed Near Seattle

But Mrs. MacDonald and company may expect a visitation any day now from Lieutenant Shirey. He'll want to know the size, velocity, shape and nationality of the soaring dinnerware.

During the Post-Gazette phase of his investigation, Lieutenant Shirey dug up the name of Coast Guardsman Frank Ryman, who photographed a disc near Seattle last year.

It was plain to see, however, that Lieutenant Shirey didn't have much hope of getting that assignment. It plainly calls for a brigade general.

## *Flying Saucer Season Here Again*

*Four Uniontown People Report Seeing Soaring Dinner-Plates,  
Forewarning Editors to Brace Themselves for a Flock of Inquiries*

By Pat O'Neill  
Post-Gazette Staff Writer

The silly season is upon us again, when the air is filled with anything the mind of inquiring man can dream up to take the place of flying saucers—the whimsical discs that filled the skies about this time last year.

For that matter the flying cylinders have already made an appearance. The police of Uniontown, Pa., spent considerable time on June 30 allaying the common excitement experienced by Mrs. Margaret Hollar, Charles Schuh, Mrs. Catherine MacDonald and her daughter, Catherine.

All reported a display of flying dinner-plates in the Pittsburgh road sector.

### Traced to Mars or Moscow

It is the time of year when city editors brace themselves to take reports from citizens who see

phenomena strictly out of the Apocalypse.

Last year the flying saucers worked their feverish magic on a populace which traced their source to Mars or Moscow. Nor was the influence of the celestial discs confined only to the man in the street.

Men in high command detailed military equipment—such as planes and personnel—to the task of running the things to earth.

Japanese balloons, meteorological equipment, pie-plates and moonbeams rewarded the searchers but nary a Man from Mars

was gleaned from the skies.

### Books Go Saucers One Better

Photographic evidence was produced to show the discs. A Coast Guard aviator produced a photo of what he believed to be a celestial saucer.

Close as he was to the gadget, he had earthbound competitors who saw the things from Seattle, Wash., to Salem, Mass. The switchboards of the nation's newspapers testified to the excitement of the people.

Yet it was not strange to the editors who listened to and recorded the information. A man named Charles Fort wrote at least three books filled with data on even more weird events. He collected all his material from newspapers.

His research showed that people are apparently eager to flout science and see frogs falling from the skies, red snow and tropical glens in Greenland.

Last summer's aviating pottery—whether pure china or Spode—deponent knoweth not—was not as baleful a piece of mass suggestion as some of the stunts perpe-

## *Sheep Displeased By Central Park*

NEW YORK, July 2 (AP)—Central Park's sheep meadow had sheep in it Friday for the first time in almost 15 years. But they didn't stay long.

Movie makers wanted a pastoral scene. They wanted the park's sheep meadow with the towers of Manhattan in the background. And they wanted sheep. So they turned a dozen loose in the meadow.

Within minutes it was an empty meadow again. One sheep was in the Tavern-on-the-Green. One groped out into Columbus Circle. Some hid in thickets, and one barged into the park zoo. It was three hours before all the sheep were back in the meadow.

trated in the early '30s.

Take the goldfish-eaters, for instance. The piscatorial pastime raised hell with the genus carp la in all its golden declensions. It had also a dubious nutritional pi value.

Incident #104, a, b -- Uniontown, Pennsylvania -- 29 June 1948

There is no astronomical explanation for this incident.

Its occurrence at the time of a thunderstorm suggests that the report might be referred to an expert on ball lightning to see whether this might be a possible explanation.

Another possibility is that the observers saw a beacon searchlight projected against clouds, although if this were the case, it should have continued visible at regular intervals.

26. Remarks: (over)

At approximately 11 P. M. on the 29th of June [REDACTED] saw a luminous oval-shaped object ~~similar to~~ a meat platter rolling along on its edge. It appeared to be going very fast since it disappeared in about 5 to 10 seconds. It was without sound or odor but seemed to have a tail which extended about a yard or so. Five minutes later, witness saw a second object and after another five-minute interval a third object was observed. They appeared in the Southwest and flew to the Northeast. The weather was cloudy with lightning and rolling thunder. The objects flew over the Oakland St. Area or just to the side of it (East of Oakland St.) They traveled about 1,000 ft and then disappeared behind the houses across the street from the witnesses.

Witnesses: Mrs. [REDACTED]  
Police Sergeant [REDACTED] & daughter

## CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date 29 June 48 Incident #164 A
2. Time 2300
3. Location Uniontown, Pa.
4. Name of observer Mrs. ██████████ et al
5. Occupation of observer Housewife
6. Address of observer ██████████, Uniontown, Pa.
7. Place of observation ██████████ Uniontown  
home of Mrs. ██████████
8. Number of objects 3 - one at a time
9. Distance of object from observer N/S
10. Time in sight 10 seconds
11. Altitude N/S
12. Speed very fast
13. Direction of flight from Southwest to Northeast
14. Tactics rolled along on its edge
15. Sound ~~N/S~~ No sound
16. Size "platter"
17. Color luminous
18. Shape oval
19. Odor detected ~~N/S~~ None
20. Apparent construction N/S - luminous
21. Exhaust trails a tail of about a yard in length
22. Weather conditions cloudy with lightning and rolling thunder
23. Effect on clouds N/S
24. Sketches or photographs None
25. Form of dimension View obstructed by neighboring houses
26. Remarks: (over)

UNCLASSIFIED

[REDACTED] CLASSIFIED BY [REDACTED]

On the night of 29th June at about ~~10:00~~ 11:00 P. M., witness saw an object that resembled a half of a large meat platter which appeared over the west end of the city at Oakland Ave & West Main St., Uniontown, Pa. It seemed to be at a height of about 6,000 ft and sailed in a straight line of about 8 or 900 feet in about 5 to 7 seconds. No sound was heard and the object ~~emitted~~ emitted no rays. It was traveling in a northeasterly direction.

Commanding Officer  
141st Air Force Base Unit (AF)  
Greater Pittsburgh Airport  
Coronado, Pennsylvania  
ATTENTION: Intelligence Officer

1. This Command is engaged in an intelligence investigation of all reported sightings of unidentified aerial phenomena and has been authorized direct communication with all Air Defense Command units by HQ AF in letter dated 6 February 1948.

2. Attention is invited to the enclosed news clipping of the Pittsburgh Post-Gazette stating that several individuals have sighted unidentified aerial phenomena.

3. It is requested your office interview these individuals and obtain signed graphic statements as to the anomalies observed. It is further requested that the observers indicate the following salient factors: location, date and time of sighting, weather conditions at the time, names, occupations and addresses of witnesses (if any), photographs or sketches, construction, number, shape, size, color, speed, in what part of the sky first observed, direction, manner of disappearance, maneuverability (tactics), altitude, sound, exhaust trail, odor, effect on clouds, diagram of flight pattern (if any), whether luminous or incandescent or if the object(s) appeared to be carrying lights.

4. It is further requested that Mr. Pat O'Neill of the Pittsburgh Post-Gazette be interviewed to procure the name, address, and any other information concerning the "Coast Guard Aviator" mentioned in the enclosure. Care should be exercised in the interview of Mr. [REDACTED] in order to avoid further publicity in this matter.

5. In connection with this investigation, request that

a. Local teletype sequence of weather conditions and the Army Alert Report at the time of the sighting(s) be obtained.
