SUBJECT: Project "SIGN"

TO: Chief, Air Weather Service,
Andrews Air Force Base,
Washington 25, D. C.
ATTN: DSS

1. Project "SIGN" is responsible for the collection, investigation and interpretation of data relative to sighting of unidentified flying objects. Attached Incident Summaries 1 thru 172 from the files of Project "SIGN" are forwarded for study and recommendations as to which of the incidents may be eliminated as balloons released on routine synoptic ascents by the Air Weather Service, the Navy Aerological Service or the United States Weather Bureau. The summaries attached may be retained in your headquarters for working and reference purposes.

2. The Air Weather Service is the only agency of its type that has been asked to assist in the accomplishment of Project "SIGN" except that the United States Weather Bureau has provided information on ball lightning. Research projects in which balloons are used and which are conducted or sponsored by the Army, Navy or United States Air Force are checked by the Intelligence Department of this Command. These checks are usually made direct from the Project "SIGN" Office, MCIAKO-3. These checks are distinct from the check of synoptic balloon flights made by weather service stations of the Air Force, the Navy and the Department of Commerce. (U. S. Weather Bureau) requested of Air Weather Service.

3. It is the opinion of this office that the below listed incidents are those having the greatest possibility of being balloons. This list does not eliminate the possibility that many of the remaining incidents are balloons.

CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date 16³⁰ 31 July 48 Incident # 155
2. Time 1630
3. Location [REDACTED]
Columbus, Ohio
4. Name of observer [REDACTED]
5. Occupation of observer Housewife
6. Address of observer [REDACTED], Columbus, Ohio
7. Place of observation Columbus, Ohio
8. Number of objects 6 or 7
9. Distance of object from observer Very great distance away
10. Time in sight N/S
11. Altitude N/S - very great
12. Speed Hovering
13. Direction of flight N/S
14. Tactics Hovering - hanging in the sky
15. Sound N/S -
16. Size of an ash tray
17. Color gold
18. Shape starlike
19. Odor detected N/S
20. Apparent construction N/S
21. Exhaust trails N/S
22. Weather conditions CATU - bright sunlight
23. Effect on clouds N/S
24. Sketches or photographs None
25. Manner of disappearance N/S
26. Remarks: (over)

Witness Statement:

Objects first looked like large stars. They seemed to be at a very great distance and appeared to be about the size of an ash tray. There were approximately six or seven of them in a formation that resembled the shape of the big dipper. Did not have a definite shape individually but just seemed to be a group of spots glittering in the sky. They were gold in color and seemed to be just hanging in the sky. The sky was clear and blue and the sun was shining but do not believe the gold color caused by a reflection of the sun.

Corroborated by truck driver but ^{witness} could not obtain his name.

CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date 31 July 48

Incident # 156

2. Time 8:00 P. M.

3. Location Columbus, Ohio - Tremen Rd near WOSU radio tower located near University Golf Course

4. Name of observer Mrs. [REDACTED] & Mrs. [REDACTED]

5. Occupation of observer Mrs. [REDACTED] housewife
Mrs. [REDACTED]: mother of Mrs. [REDACTED]

6. Address of observer [REDACTED] Ave., Columbus, Ohio

7. Place of observation [REDACTED] Rd near WOSU Radio Tower

8. Number of objects 1

9. Distance of object from observer 250 feet

10. Time in sight N/S

11. Altitude 250 feet

12. Speed very slow

13. Direction of flight West to East

14. Tactics Did not change course or altitude

15. Sound No noise

16. Size of gasoline drum - Approx 5' x 6'

17. Color [REDACTED] Black

18. Shape Oblong

19. Odor detected N/S

20. Apparent construction N/S

21. Exhaust trails Spouted black smoke from the top

22. Weather conditions Clear with no clouds

23. Effect on clouds No clouds

24. Sketches or photographs None

25. Manner of disappearance N/S

26. Remarks: (above)

On Saturday evening, 31 July 48, at approximately 8:00 P. M. , while driving south on Tremont Road as observers approached the WOSU Radio Tower located on the University Golf Course, a large object resembling a huge lantern was seen floating in the sky. The weather was clear, and it was still daylight so object could be seen quite clearly. It was oblong in shape and about the size of a gasoline drum. It was coming from the west and moving very slowly. It passed close to the tower and was about 1/2 the height of the tower from the ground. As it passed overhead traveling east, it spouted black smoke from the top and at the bottom on the left side there was a dull enclosed light like that of a lamp. The object did not change its course or altitude but continued on to the east with black smoke trailing behind. The object was black. It did not make any noise. There were no wings visible nor did it have any motor. No openings of any kind could be seen.

NOTE: Another car stopped near them with two occupants who claimed that they had never witnessed anything like it before.

CHECK-LIST - UNIDENTIFIED FLYING OBJECTS

1. Date 31 July 48 Incident # 157
2. Time 8:00 P. M.
3. Location Columbus, Ohio
4. Name of observer [redacted]
5. Occupation of observer Teletype Operator
6. Address of observer State Highway Patrol Radio Station
7. Place of observation Near Golf Driving Range, Columbus, Ohio
8. Number of objects 1
9. Distance of object from observer Object was balloon which fell to earth & was investigated by observer
10. Time in sight N/S
11. Altitude Came to earth from around 100 ft (when first observed)
12. Speed N/S
13. Direction of flight earthward
14. Tactics N/S
15. Sound N/S
16. Size 2 ft x 3-1/2 ft
17. Color white crepe paper
18. Shape N/S - but said to be like old time "County Fair" balloon - round
19. Odor detected N/S
20. ~~Aerospace~~ construction crepe paper
21. Exhaust trails smoking - caused by large ball of waste material
22. Weather conditions N/S - (clear - see Incident: 156)
23. Effect on clouds N/S (no clouds)
24. Sketches or photographs None
25. Manner of disappearance Fell to earth where it was retrieved.
26. Remarks: (over)

Object was perceived floating in the sky coming from the west over Ohio State Student housing Project and was approximately 100 feet off the ground when first observed. It got lower all the time and landed in a field nearby. Three small boys ran toward it and observer went over to investigate. Saw paper bag affair approx 2 feet in diameter and 3-1/2 feet long made of white crepe paper. (like old time "County-Fair" hot air balloons) It was smoking when first observed and this was caused by a large ball of waste material which was fastened underneath it. There were no marks or writing on it ~~XXXXXXXXXXXXXX~~

Note: See Incident 156 - in which time & direction tally.

9 Aug 1948

A-1917

On 2 August 1948, Mrs. [REDACTED], housewife, and Mrs. [REDACTED], mother of Mrs. [REDACTED], both of [REDACTED] Avenue, Columbus, Ohio, were interviewed concerning an unidentified object in the sky and stated in substance:

On Saturday evening, 31 July 1948, at approx 8:00 P.M., we were driving south on [REDACTED] Road and as we approached the WOSU radio tower which is located on the University Golf Course, we saw a large object which looked like a huge lantern floating in the sky. The weather was clear there were no clouds, and it was still daylight, so we could see the object quite clearly. It was oblong in shape and was about the size of a gasoline drum. It was coming from the west and moving very slowly. It passed close to the radiotower and was about half the height of the tower from the ground. As it passed overhead traveling east, it was spouting black smoke from the top and at the bottom on the left side there was a dull enclosed light like a lamp. The object did not change its course or altitude but continued on to the east [REDACTED] with black smoke trailing behind. The object was black and did not make any noise. It did not have any motor or wings visible and we could not see any openings of any kind. We stopped our car to observe this object and another car stopped near us. There was a boy and a girl in it and they both said they never saw anything like the object before. We did not get their names. We called the Columbus Dispatch (newspaper) when we got home and the editor took our story but he misrepresented the facts in the newspaper. We did not see any "glittering whirling discs" or "glittering balls" as stated in the paper. We say only one object.

~~REFUGED~~

UNCLASSIFIED

Incident #155 -- Columbus, Ohio -- 31 July 1948

There is no astronomical explanation for this incident.

If the information offered is to be given any weight at all, the most likely explanation is that a cluster of balloons, or a balloon with several fire-pots hanging below it, was observed. Corroboration for this interpretation is probably furnished by incidents #155 and 157, which occurred a few hours later near this location. The object reported in #157 proved to be a "county-fair" type balloon.

4. REPORT OF FINDINGS

- (1) On 2 August 1948, Mrs. [REDACTED], housewife, [REDACTED] Avenue, Columbus, Ohio, was interviewed concerning unidentified objects which she saw in the sky on Saturday, 31 July 1948, at approximately 1630 hours, and stated in substance:

My husband and I had just left our house which is located on the southeast corner of Leonard and Monroe Avenues and had turned west on Leonard when I glanced up at the sky and saw some objects which looked like large stars. They seemed to be a very great distance away and appeared to me to be about the size of an ash tray. There were approximately six or seven of them and they were in a formation that resembled the shape of the big dipper. They did not have any definite shape individually but just seemed to be a group of spots glittering in the sky. They were gold in color and were not moving but seemed to just be hanging in the sky. The sky was clear and blue and the sun was shining but I do not think that the gold color was caused by a reflection of the sun. I do not think these objects were man-made but I believe they were just a strange celestial phenomena. I told my husband to look at the strange objects in the sky but he could not see them and told me I was having hallucinations. When we stopped for the traffic light at Leonard and St Clair Avenues, a truck stopped beside us and I asked the truck driver if he could see anything in the sky. He said he saw them but did not know what they were. I was not able to obtain the truck driver's name as traffic started to move. We turned south on St Clair Avenue then and I could not see the objects as my sight was obstructed by buildings. I called the Columbus Dispatch (newspaper) at approximately 10:30 p.m. that evening to find out if anyone else had reported seeing them, and I told the editor my story. It was a strange sight and I have never seen anything like it before. B-6

- (2) On 2 August 1948, Mrs. [REDACTED], housewife, and [REDACTED] mother of Mrs. [REDACTED], both of [REDACTED] Avenue, Columbus, Ohio, were interviewed concerning an unidentified object in the sky, and stated in substance:

On Saturday evening, 31 July 1948, at approximately 8:00 p.m., we were driving south on [REDACTED] Road and as we approached the WOSU radio tower which is located on the University Golf Course, we saw a large object which looked like a large lantern floating in the sky. (3) On 2 August 1943, ██████████ teletype operator, State Highway Patrol Radio Station WPGO, Ackerman Road, Columbus, Ohio, was interviewed and stated in substance:

On Saturday evening 31 July 1943, at approximately 8:00 p.m., I was at the refreshment stand of the Golf Driving Range which is located on Dodridge Street across from Union Cemetery, when I saw an object floating in the sky. It was coming from the west over the Ohio State Student Housing Project and was approximately 100 feet off the ground when I first observed it. It was getting lower all the time and I saw it land in a field nearby. Three small boys ran toward it and I went over to investigate. The object was a paper bag affair approximately 2 feet in diameter and 3½ feet long, made of white crepe paper. It was like the old time "County Fair" hot air balloons. It was smoking when I first observed it and I found that this was caused by a large ball of waste material which was fastened underneath it. There were no marks or writing on it and I do not know where it came from.

Investigations by this headquarters reveal that a synoptic weather balloon could have been at the location where sightings were reported in the following incidents. In compiling this list consideration was given to the wind direction and speed at the surface and aloft at the scheduled time of balloon release, and the location of the nearest weather station making balloon observations.

Incident #155 -- Columbus, Ohio -- 31 July 1948

This incident and incident #157, which obviously refer to the same object, must be considered together. The object fell to earth and was retrieved; it proved to be a "county fair balloon," once quite common in this part of the country. Usually they are lighted in mid-afternoon, having one or more fire-pots to provide the hot air. They then rise and stay aloft for several hours before finally falling to earth.

It is highly probable that the object described in incident #155, which was observed a few hours earlier on the same day and near the same location, was this object, seen while it was still high in the sky.
