Incident #161 -- McKeesport, Pennsylvania -- c. 8 July 1948

Information offered by these two untrained, uncritical, and excitable observers can be given little weight. There does not appear to be anything astronomical about this incident; chances are that the two women saw ordinary aircraft with sunlight reflected from fuselage but not from wings.

Flying Disc In Sky Here, Women Say

"Flying saucers" were reported in the district again today.

Two Grover Ave. women talking outside their homes this morning said they saw what looked like a "big, silver plate" zooming noiselessly overhead in the direction of Kennywood Park.

"Oh, look, that's not a plane," screamed Mrs. Neil Veway, of 3404 Grover Ave. to her neighbor, Mrs. Elizabeth Goltz, 3604 Grover Ave. "It looks like one of those flying saucers."

Mrs. Veway said the disc, about 12 to 15 inches in diameter, disappeared in a cloud bank, but reappeared on the far side and also was seen by Mrs. Goltz, who was standing on her front porch.

"We followed the disc until it disappeared out of sight," Mrs. Veway added.
