DETAILS:

AT LUDINGTON, MICHIGAN

1. [REDACTED], Ludington, Michigan, age 15, and [REDACTED], Ludington, Michigan, age 16, were interviewed at the residence of [REDACTED] and stated the following:

On 20 April 1949 at 1400 - 1500 hours, [REDACTED] and [REDACTED] were at the City Dump, Ludington, Michigan, located approximately 7 blocks north and 7 blocks east of the [REDACTED] residence. They stated they saw a trail of either smoke or clouds going straight west, at about the same rate of speed as a jet fighter. They looked ahead of this smoke streamer and saw an object approximately 10" in diameter which seemed to be the cause of this smoke. This object was round and appeared to give off a reflection in the sun. The streamer of smoke was described as being a long tail approximately two blocks long, white and fluffy like a cloud. The object was in sight approximately 10 minutes during which time [REDACTED] and [REDACTED] hopped on their bicycles and headed for the Ludington City Newspaper to notify them of the instance. After traveling about 7 - 8 blocks, toward the downtown area of Ludington, [REDACTED] stated he looked around and the object was gone out of sight, and that he just saw a flash of the white fleecy tail disappear in a cloud bank. [REDACTED] and [REDACTED] stated that the day was clear, sun bright, and quite hot, clouds very high in the sky. [REDACTED] judged the distance and height of the object to be approximately 4 miles away and 5,000 ft. high. [REDACTED] stated that the fluffy tail like cloud seemed to come from the object and was quite small in diameter at first, and gradually increased in size until approximately the diameter of the [REDACTED] object. No further information was given by either [REDACTED] or [REDACTED].

2. [REDACTED] stated that approximately one week from the date of the newspaper item concerning the instance, he received a post card from an unknown woman in Eastern Michigan, near Detroit, saying she had seen several of these objects go over her house and would like him to write her and describe what he had seen. Efforts to obtain an identification of this unknown woman were negative although TIMM feels he can find the post card, and will forward same to this agent.

AT VANDERCOOK LAKE, MICHIGAN

This phase of the investigation was conducted by Special Agent GENE P. MORITZ:

3. A newspaper item in the Detroit News, page 1, column 4, dated 27 July 1949, stated that an object fell in the road in front of the home of Mrs. [REDACTED], VanderCook Lake, Michigan, burning a hole in the pavement.

DETAILS:

1. This investigation is predicated upon receipt of a Routing & Record Sheet, dated 13 May 1949 from W. R. CLINGERMAN, Colonel, Chief, Analysis Division, Intelligence Department (MCIAKS), Headquarters, Air Material Command, Wright-Patterson Air Force Base, Dayton, Ohio who received information hereinafter set forth regarding the sighting of unidentified aerial phenomena, reported by news clippings, in the vicinity of Ludington, Michigan on 21 April 1949 and Homer, Michigan on 29 April 1949.

2. Information received indicates that the observers, [REDACTED] and [REDACTED], saw flying disc which looked like a comet with a tail a "block long." It was traveling west and disappeared over Lake Michigan. The object was white and clearly visible as there were no clouds over Ludington Wednesday afternoon.

3. Information received indicates that the observers, [REDACTED] and [REDACTED] sighted six flying discs over Homer, Michigan about 0915 hours Thursday. They pursued the discs in an automobile for about five miles on M-60 before losing sight of the low flying objects. They said the discs appeared to be about ten (10) inches in diameter, moving in wide circles, following a course which closely paralleled the highway.

4. Request return of completed leads to reach this office not later than 10 June 1949.

'Flying Disc'

Youths Say It Passed Over Ludington

Ludington—Two youths reported seeing a fast traveling "flying disc" pass over Ludington Wednesday afternoon.

Paul Timm, sophomore in Ludington High school, and a companion, Pat O'Connell, said the disc looked like a comet with a tail a "block long." It was traveling west and disappeared over Lake Michigan.

They said it was white and clearly visible. There were no clouds over Ludington Wednesday afternoon.

4. On 23 July 1949, the [REDACTED] were interviewed at their home at [REDACTED], Vandercook Lake, [REDACTED] miles [REDACTED] from [REDACTED], Jackson, Michigan. [REDACTED] [REDACTED], age 13, stated that she was with a group of friends at her home, and on looking out the front door at around 2100 hours EST she saw an object burning in the road in front of her home. The object glowed without flame for about three minutes. [REDACTED] then ran out to the road, and picked up the remains of the object on a cardboard. On questioning, [REDACTED] stated that she had not seen the object fall from the sky, and when she first saw it it was burning in the road.

5. [REDACTED] apparently was enjoying the sensation created by her daughter's story and attempted to get her to say that she had seen the object fall as had been reported previously. [REDACTED] would not do this.

6. [REDACTED] then showed this writer the hole burned in the road. The spot was about twenty-five feet from the front door of the [REDACTED] [REDACTED]'s home. The burned area was about four inches at the widest spot. There was no visible sign of impact, such as surface cracking. The area was burned regularly to a depth of approximately 1/4 inch in the tar covered road. The burned area was photographed by this writer with a G3 camera, f 11, speed 100, small flash at a distance of 5 3/4 feet. Print is attached hereto as Inclosure #1.

7. This writer noted during the interview that many heavy trucks passed the [REDACTED] [REDACTED]'s home. Both Mrs. [REDACTED] and [REDACTED] stated that they had never seen any of the trucks use a flare there, and [REDACTED] did not recall any vehicles being on scene while flare was burning.

8. Sample of residue was obtained which is attached hereto as Inclosure #2.

9. Jackson Citizen Patriot, 27 July 1949, p. 5, Col. 4, carried an article which stated that the Clark Equipment Co. Laboratory had made tests of the material, concluding that it was probably residue from an emergency flare. This article is attached hereto as Inclosure #3.

ENCLOSURES

FOR COMMANDING GENERAL, AIR MATERIAL COMMAND:

1. Photo of burned area.
2. Residue from unknown burning material.
3. Article from Jackson Citizen Patriot, 27 July 1949.

REFERRAL UPON COMPLETION TO AIR MATERIAL COMMAND
