Comments of interrogator relative to intelligence and character
of observer:

An interview with enlisted men of the 39th AAA Battalion revealed
that the observers are reliable in character and intelligence.

Did observer wear glasses, especially polaroid glasses at time of
sighting or was object viewed through canopy, window, or other transparent
material: Binoculars were used by Cpl [REDACTED] and Pvt [REDACTED] after
initial observation.

GENERAL

1. Teletype sequences of local weather conditions: Clouds, clear;
visibility, 50 miles; temperature, 70 degrees; relative humidity, 23%;
Dewpoint, 33; altimeter: 016.
2. Winds aloft report: Calm.
 - a. Adiabatic chart for period in question: None available.
3. Local flight schedule of commercial, private and military
aircraft flying in vicinity at time: Military aircraft flying within the
area at that time.
4. Possible releases of testing devices in vicinity sent aloft by
Ordnance, Navy, Air Force, Weather Units, Research Organizations or any
other: All installations within this area were contacted with negative
results.
5. Did object contact the earth: Object did not contact the earth.
6. Photographs or Sketches: Sketches are attached hereto.
7. Signed statements: Signed statements were received and are being
retained at this headquarters.
8. Obtain fragments or physical evidence where possible: Not possible.

13. Direction of flight of object: Moved away at about 100°
and slowly ascending.

14. Time in sight: Approximately 5 minutes.

15. Speed: In 5 minutes it apparently moved about 15 to 20 miles
judging from its position at time of first sight to a position apparently
over the mountain range.

16. Sound or odor: None

17. Trail: None

18. Luminosity: Reflection

19. Projections: None

20. Maneuvers: Irregular rolling and tilting motion slowly
rising as it travelled away.

21. Manner of disappearance: See #9.

22. Effect of clouds: Saw it first without glasses and still
saw it through tinted binoculars.

23. Additional information concerning object: None

24. Weather conditions and light at time of sighting: Bright
sunshine. No clouds. Temperature about 70°.
