UNCLASSIFIED

AT LESA, ARIZONA

1. Mr. [REDACTED] of [REDACTED], was interviewed on 25 December 1949. CIRCUIT RECORDER advised that the reason he reported the sighting of the unconventional aircraft in California instead of reporting it here in Arizona was because every one that made mention of seeing strange objects in the sky was considered to be psychopathic cases and CIRCUIT RECORDER was afraid this would harm his chances of serving on juries or in sessions of court in Arizona. Prior to verifying any of the information CIRCUIT RECORDER gave to Agent [REDACTED] he went to great lengths determining if this Agent was an Agent of the Air Force or whether this Agent was a reporter connected with a publication. Still prior to making any statements concerning the Subject of this investigation CIRCUIT RECORDER informed this Agent that his brother [REDACTED] was an alcoholic and that [REDACTED] another brother same address, was just a little slow mentally and that any thing either one of them said would have to be evaluated, taking into consideration the aforementioned weaknesses. Then Mr. [REDACTED] called for Lt. [REDACTED] and Lt. [REDACTED] to verify his statements concerning the unconventional aircraft. All of above stated substantially the same: That the objects were sighted 24 June 1949 at 1645 to 1650 hours from their back yard at Box 217, Mesa, Arizona. This residence is located in West Mesa, Arizona one and one half blocks south of Main Street which is the north and south dividing line in Mesa, Arizona. All of above stated the same as reported by Special Agent [REDACTED] with two exceptions. One was that the fifth object which was traveling from west to east remained in sight for exactly twenty-three (23) minutes instead of twenty-five (25) seconds. The other exception was the distance of objects from observers. This distance was judged to be approximately twenty-four (24) miles. During the conversation with the CIRCUIT RECORDER an offer was made by Mr. [REDACTED] to manufacture this Agent a working model of the unidentifiable objects.

2. Mr. [REDACTED] Supervisor of Water Association, Mesa, Arizona, was interviewed and stated that on 24 June 1949 he was at the CIRCUIT RECORDER's residence and that they were excited about some objects in the air; there were three objects hovering around a small cloud high in the sky; that these objects were at an extreme altitude in the northwest. Two of these objects traveled to the northeast, one to the southwest and then turned to the southeast. They appeared to be of bright aluminum and [REDACTED] could judge that they were approximately the size of a DC-6 aircraft. Mr. [REDACTED] further stated that it was impossible to determine if they were conventional aircraft or some other objects. Mr. [REDACTED] did not observe the objects through the binocular because at that time the objects did not appear to be unusual enough to warrant any undue excitement. Mr. HOOD could not determine the exact size or shape or any other information that would assist in establishing what the unidentified objects were.

3. The two stepchildren of [REDACTED] [REDACTED] and [REDACTED] had been frightened by their parents so badly that no amount of questioning or conversation could get them to mention anything about the alleged objects. The children's mother and father had threatened them with so much punishment if they spoke about it to anyone that no amount of inducement either

27 Sept 1949

UNCL

DETAILS:

1. This investigation was conducted in conformity with AFCSI Letter No. 85, dated 12 August 1949, subject: Unconventional Aircraft, "Special Inquiry".

2. This report is based upon a personal interview of ~~WILLIAM A.~~ by this agent on 22 September 1949 at the Federal Building, Los Angeles, Calif. Contact was established with ~~WILLIAM A.~~ by means of a telephone call to OSI District Office No. 18 by Warrant Officer LEMASTER in the Los Angeles Communication Center, Room 1418 Federal Building. LEMASTER stated that ~~WILLIAM A.~~ was in the office relating that he had seen flying discs and desired permission of the military authorities to photograph future sightings of discs with the object of commercial sale. The details set forth below are the observations, comments and estimates of WILLIAM A. ~~WILLIAM A.~~, except as otherwise indicated.

AT LOS ANGELES, CALIFORNIA

3. Date of sighting:

24 June 1949.

4. Time of sighting:

1545 ~ 1630 hours.

5. Where sighted (observers position):

From the ground on western outskirts of Mesa, Arizona.

6. Number of objects:

Four (4) initially, later a fifth disc appeared.

7. Observable celestial phenomena or planets that may account for the sighting:

Sighting occurred between the hours 1545 ~ 1630.

8. Distance of objects from observer:

Distance varied. Initially, the four (4) observed together were approximately 85 degrees above the horizon. Objects appeared to hover around small cloud, estimated to be at an extremely high altitude. The fifth disc, which moved from west to east, was at a lower altitude than the other four (4) but was also extremely high.

9. Time in sight:

Four (4) objects ~ approximately 30 minutes. Fifth object ~ about 25 seconds.

UNCLASSIFIED

27 Sept 1949

10. Appearance of object:

(a) Color - Steel gray; reflected sunlight brilliantly; appeared ruby red when viewed from great distance.

(b) Shape - Consisted of two (2) principal parts, a disc supported by two (2) flanges extending around the disc. Appeared rectangular in some positions. The sketches, shown in Inclusions 1 and 2, are reproductions of [redacted]'s rough sketches to show appearance at different distances.

(c) Apparent construction - Metallic. [redacted] is definite on this even though flanges were flexible under what appeared to be air pressure.

11. Direction of flight:

After the four (4), hovering near the cloud, had been observed for about 20 minutes, they dispersed. One proceeded in a smooth direct course to the southeast, a second moved straight east, a third went northeast, and the fourth moved upward at about an 82 degree angle. The fifth object, which was not visible at first, appeared in the west and moved eastward.

12. Tactics or maneuvers:

Four (4) were observed to move horizontally, one moved upward at about an 82 degree angle.

13. Evidence of exhaust:

None noted.

14. Effect on clouds:

No effect noted.

15. Lights:

Reflected sunlight brilliantly in some positions. Gave off ruby red light at distance.

16. Support:

The only visible means of support consisted of two flanges or extensions from the inner disc. These flanges partially enveloped the disc.

17. Propulsion:

(a) Propeller or jet - None noted.

(b) Rotor - None noted.

(c) Aerodynamic vanes - Extensions or flanges in front and back of disc could serve as vanes.

(d) Visible exhaust or jet openings - None noted.

UNCLASSIFIED
CONFIDENTIAL

27 Sept 1949

18. Control and stability:

(a) Fins - None noted. UNCLASSIFIED

(b) Stabilizers - Conceivably the flanges or extensions from the disc could have served as stabilizers.

19. Air ducts:

The only aperture reported was an opening between the flanges and disc which permitted a view directly through the object at certain positions.

20. Speed:

Speeds varied during the 45 minutes of observation. A maximum of 400 miles per hour was estimated.

21. Sound:

No sound emanating from the objects was heard.

22. Manner of disappearance:

Faded from view.

23. Relative to the observer:

Name: [REDACTED]
Address: [REDACTED], Los Angeles, California

Permanent mailing address: [REDACTED] Arizona.

Occupation: Owner of Old Gold Bond Mine at Goldfield, Arizona.

Reliability:

[REDACTED]'s manner during the two hour interview was direct and businesslike. In personal appearance he was well dressed and neat. His descriptions were precise; his statements were coherent and consistent. This agent did notice, however, that [REDACTED] was inclined to be emotional and his face moved nervously on occasions. [REDACTED] claims his vision is good, although he wears glasses to correct minor defects due to advancing age. He is about 50 years of age.

A check of the records at the University of Southern California reveals that [REDACTED] took courses in education, Sociology and Psychology at that University in the summers of 1923 and 1924. No degree was obtained. These same records also reflect that he later attended the Lawton Business College at Mesa, Arizona. This information confirms [REDACTED]'s statements concerning his education.

Hobbies [REDACTED] claims to be an amateur astronomer, and to have his own telescope with 9-inch reflector.

UNCLASSIFIED

27 Sept 1949

Manner of noting objects:

Observer was changing a tire on his car. Upon wiping perspiration from his forehead, he raised his head slightly and noted the four (4) discs.

Witnesses:

[REDACTED] (was an instructor in aircraft gunnery during World War II.)

[REDACTED] Supervisor of Water Association, Mesa, Arizona.

Also two (2) children of [REDACTED] age 7 and 9.

2 INCLOSURES

FOR COMMANDING GENERAL, AMC, WRIGHT-PATTERSON AFB, DAYTON, OHIO

FOR HEADQUARTERS, OSI, WASHINGTON, D.C.

FOR DO #17, KIRTLAND AFB, ARIZONA

FOR DO #18, MAYWOOD, CALIFORNIA

1. Handdrawn reproduction of [REDACTED] rough sketch of view of flying disc from great distance.
2. Same as 1. above except that view of disc is at closer range.

- PENDING -

UNCLASSIFIED

CONFIDENTIAL

27 Sep 49

UNDEVELOPED LEADSDISTRICT OFFICE NO. 17, KIRTLAND AFB, ARIZONAAT MESA, ARIZONA

Will interview the four (4) persons listed below to determine the accuracy of [REDACTED] account of the flying disc incident, to check on his reliability, and to obtain such other information on the flying discs as they may be able to furnish.

[REDACTED] (brother of [REDACTED], P. O. [REDACTED], Mesa, Arizona.

S. [REDACTED] Supervisor of Water Association, Mesa, Arizona.

The two (2) children (aged 7 and 9) of [REDACTED]

UNCLASSIFIED

INCLOSURE 2

Appeared this shape at times with
the flanges occasionally curling
back around the inner disc to reveal
the form of the disc which remained
fixed.

INCLOSURE 1

This shape was noted when object viewed from a very great distance. Appeared ruby red in color. Also appeared this shape on one occasion when disc turned in the air.
