REPORT OF SIGHTING OF "FLYING DISCS" OR OTHER PHENOMENA IN THE ATMOSPHERE

3 22

RESTRICTED

Date of sighting 2 August, 1949 Time (2045)

Location of sighting From Port O'Connor Lifeboat Station, Port O'Connor, Texas; lookout tower, object bearing 265° true from station.

Weather conditions Partly cloudy, very light breeze, Electric squall had passed west of the station about an hour before object sighted - squall was still visible in Southwest.

OBJECT SIGHTED

Number One. Heading Apparently almost stationery with occasional slight loss of altitude and movement to Northward.

Shape Apparently Spherical Altitude Estimated 3000 Ft.

Size Unable to make accurate estimate due to darkness & atmospheric conditions. Maneuverability Very slow - object appeared to remain stationary for short time then lose altitude & move northward then stop again.

Color Apparently the object emitted a dull red light. Sound No sound

Speed Very slow and at times stationary. Exhaust trail None sighted.

Name	Address	Occupation
<u>Doyle J. Green (104-280) BMC (L)</u>	<u>Port O'Connor, Texas</u>	<u>U. S. Coast Guard</u>
<u>Carl L. Stone (241-352) BM2,</u>	<u>Port O'Connor, Texas</u>	<u>U. S. Coast Guard.</u>
<u>Robert D. Gardner (264-132) EN3,</u>	<u>Port O'Connor, Texas</u>	<u>U. S. Coast Guard</u>
<u>Ralph Chambers (282-268) SN</u>	<u>, Port O'Connor, Texas</u>	<u>U. S. Coast Guard</u>

& other crew members.

REMARKS

Object remained visible for about 4 or 5 minutes; the intensity of the glow varied at time disappearing for a second or two then reappearing. Light finally disappeared completly. A check was made with Matagorda Air Base and no planes were known to have been in the vicinity.
