Gentlemen, Enclosed please find a sketch of an event that happened here a few days ago. While walking to my place of employment about 5 o'clock in the morning of August 18th, suddenly there appeared in the eastern sky a formation of about 12 pieces. Moved North-South to the West, Speed about 5-600 M.P.H. Altitude 5-6000 Feet. Elevation here is about 2250 Feet. Terrain is very mountainous, 50M. West of Donner Summit, Mount Rose and Lake Tahoe, heart of the Sierras & Mother Lode Country.

The most unusual behavior of these objects as a group was "When Altitude was changing do to the rugged terrain, the opposite Sides of the half-circle formation were "furiously" bobbing up and down for 3 or 4 seconds,

And then it seemed as if some "guiding force" pulled them back in line to disappear in the distance.

Color black, moving as in a hazy mist, no audible sound from observer's viewpoint, which was about one mile.

Diameter of objects 50-100 feet. appeared to be a definite orientation of some kind, and a formidable one at that!

at 8 o'clock that same morning I called the Sheriff of Placer County to report this incident.

Will be thankful to hear from you regarding this matter.

yours very truly
