CHARACTER
SPECIAL INQUIRY

REFERENCE
None, this is an initial report.

SYNOPSIS

An interview with Mr. [redacted], [redacted], Niles, Ohio, disclosed that the aerial phenomena of McDonald, Ohio, was attributed to the Carnegie-Illinois Steel Plant cleaning out an old building whereby some silver paper that was being burned as trash flew into the air and drew the attention of a young fellow who in turn reported it to Mr. [redacted].

DETAILS:

AT CLEVELAND, OHIO

1. Mr. [REDACTED], [REDACTED], Niles, Ohio, was interviewed. Mr. [REDACTED] stated that after notifying the U.S. Air Force, he found out what the aerial phenomena was, for the following day he put an article in the paper which is more or less self-explanatory. When asked if he actually thought the incident was attributed to "flying saucers", he stated that he was doubtful but that it was a good thing to write an article on. A copy of the article is attached to this report.

McDonald 'Saucers' Turn Out To Be Bits of Silver Paper

The latest rumors of "flying saucers"—this time in our own backyard—have been squelched.

Thursday several McDonald Citizens were startled to behold high in the sky, several shiny objects

which seemed to be going up. It was difficult to make out size or shape of the "things".

According to Tom Luarde, 14, of Marshall Rd., who was probably the first resident to view the spectacle, he noticed a shiny mass of something moving through the air and ran to the Goodwill Club where he spread the news.

Tom said that soon after he saw the object, glittering and flopping in the sun, it split up into four or five pieces, and all headed for the ceiling. They disappeared from sight and a few minutes later began to fall toward the earth.

Several persons, including Frank Roseman of Margaret Ave., saw the shiny "saucers" but had no idea as to what they were or even the shape of them.

As the McDonald residents watched, one "saucer" looked as though it might land a few miles away and several boys took off on their bicycles to investigate.

The secret of the "saucers" wasn't known until yesterday afternoon and after special investigators of the Air Force had been called in. An Air Force man was to come here today to look into the matter.

It was found that employees of the Carnegie-Illinois plant had cleaned out an old building. They were burning trash, some of which was a kind of silver paper. One of the pieces of paper took a jaunt into the stratosphere—hence, "flying saucers" or a reasonable facsimile.
