SYNOPSIS

Investigation initiated by District Commander, based on information from FBI Field Office, San Antonio, Texas, that [redacted] Gonzales, Texas, and two other persons had observed an unusual aerial phenomena. Investigation revealed that [redacted] and [redacted] all of Gonzales, Texas, had observed an aerial phenomena east south east of center of Gonzales, summer of 1951. [redacted] and [redacted] Gonzales, Texas, had seen two (2) unusual aerial objects, one while driving through Shiner, Texas, and one while driving on Highway #3 at Oak Forest, Texas. One was unusual because it appeared to vanish into a ball of fire, and the other because it had no markings or insignia. Mrs. [redacted] and husband saw an unusual circular aerial object while driving south on Highway #3, approximately one (1) mile north of Gonzales. Acquaintances stated reliability of K. D. SHUGER and [redacted] might be questionable. All other interviewees were considered reliable.

DETAILS (Cont'd)

5. On 21 May 1952, Mrs. [REDACTED], Plaza Hotel [REDACTED] James Street, Gonzales, Texas, was interviewed in reference to an unusual aerial phenomena she had seen near Gonzales, Texas, approximately in October 1951. The object had been sighted while she and her husband were driving toward Gonzales on Highway # 3 approximately one (1) mile north of Gonzales. As they reached the summit of a small hill the object appeared straight ahead and at first it was believed to be a grayish cloud with a white circle around it. Upon closer observation, by both she and her husband, it seemed to be something other than a cloud and it was moving as if there was some means of power propelling it. Mrs. [REDACTED] stated she did not know if the object was of a solid material or not. She further stated that if she had been alone and the only person to have seen it she would have considered it a figment of her imagination, but since her husband also saw it and after they had discussed what they saw, they decided it could have been a "flying saucer". Mrs. [REDACTED] gave the following information concerning the aerial phenomena:

DETAILS (Cont'd)

Mr. ██████ might relate. Mr. ██████ advised that he had known Mr. ██████ all his life and that he believed ██████ was of good character and trustworthy, however, he had some doubt about the credibility of information received from ██████. Mr. ██████ stated that ██████ might be inclined to seek publicity. He based this on the way ██████ would greet him whenever they met, which was quite frequently. ██████ would greet him ██████ as if they had not seen each other in months when in fact it may have not been over a day or two since they had spoken to each other. Mr. ██████ further advised that he did not know just how to express what he meant, but that SHULER was peculiar in a way and might exaggerate the truth or supplement it through his imagination.

Mr. ██████ advised that he had known Mrs. ██████ for many years and believed her to be completely reliable, honest, trustworthy, and that any information she related would be credible.

8. On 21 May 1952, Mrs. ██████, Secretary, Chamber of Commerce, Gonzales, Texas, was interviewed and stated substantially the same as Mr. ██████ concerning the honesty, character, and credibility of Mr. ██████ and Mrs. ██████. Mrs. ██████ further advised that Mr. A. L. NORRIS was honest, trustworthy, and reliable, but that he had changed considerably since he had been injured in a fire and that at present, she was somewhat doubtful about the credibility of information he might relate because he seemed to read and think a great deal and then use his imagination to supplement the facts. Mrs. ██████ further stated that she did not wish to imply that anyone of the three (3) persons would make up a complete falsehood or that they were not basically honest, truthful, dependable, and reliable.
