SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)

The following information was extracted from the Semi-monthly Intelligence Report #9 dated 15 May 1952 prepared by the MATS Liaison Officer, 1603-2 ATW Detachment, Atlantic Division, MATS, Nicosia, Cyprus.

At approximately 2030 hours on 10 May, in the city of Paphos, Southwest Cyprus, a group of persons including a noted British Scientist sighted an unidentified object which appeared to rise sharply from the level of the sea and disappeared into the sky. The object appeared to the observers to be of a circular shape and emitted a luminous light. It appeared to waver back and forth for a brief interval before fading out of sight directly overhead. At the time of the incident the sky was clear and there was no air traffic in the vicinity of Cyprus.
