## AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency) 138th AC&W Squadron RCAF B, Waver, S.D.	REPORT NO. IR-4-52C	PAGE 2nd	OF 2	PAGES
---	------------------------	-------------	---------	-------

1. Description of object
  - a. Round or oval shape
  - b. Approximate size of DC-3 aircraft
  - c. Luminescent in color
  - d. Two objects
  - e. No exhaust
  - f. No visible means of propulsion
  - g. Sound, came from entirely different direction.
2. a. Time, 1000 Central Time
3. a. Number of observation, visual
4. a. Location of observer, 5 to 10 miles north Bismarck, North Dakota
5. a. Observer, Mrs. ~~XXXXXXXXXXXXXX~~, Bismarck, North Dakota
  - b. Witness, Mrs ~~XXXXXXXXXXXXXX~~, wife of DC-3 pilot employed by Magnolia Oil Company.
  - c. Experience, witness was aircraft spotter during World War II.
6. a. Weather, clear, winds about 61 knots at 25,000 feet from 300°.
7. a. No meteorological activity at time.
8. No physical evidence
9. No interception action taken.
10. Air traffic at time; 1 B-36 at 40,000 feet, 3 F-51's in local area.

TRUE SWORN STATEMENTS CONCERNING UNIDENTIFIED FLYING AIRCRAFT

On Monday, July 28, 1952, at ten A.M., we observed two silver or luminous objects directly north in the sky which were traveling in an easterly direction. These objects were in formation, appearing to be equidistant from one another, and remaining at the same altitude, approximately a 45 degree angle from the horizon, as long as they were in sight. They were clearly defined and were, in our opinions, no smaller than a DC-3 (if a circle were drawn from wing tip to wing tip and from nose to tail) nor larger than a DC-4. Our impressions were that objects were traveling at a high rate of speed as they were visible to us for only fifteen to twenty seconds. There was a sound of a motor, or motors, simultaneously - but this sound was in the south or southwest while the objects were in the north. We were unable to detect any windows; but if either of these objects were divided into quarters, it would be round with the exceptions of the lower left quarter, which appeared to be slightly flattened and black or darkened at the edge. We were impressed by how quickly these disappeared from sight. It is our estimate that they were not over eight miles distant. These objects were like nothing else either of us has ever seen, and we feel there is every reason to believe that it is entirely possible that they are of "flying saucer" origin.

Following this incident, at ten minutes after ten, we observed three F-51 Mustang fighter planes flying from Southwest or South to East.

I, Mrs. [REDACTED], was an airplane spotter on the east coast during the last war and did have a total of 150 hours doing this work. I feel somewhat qualified to say that this object was completely different from any aircraft which I saw at that time or have seen since. Having lived in Dallas, I am also familiar with F-36's and can see no connection between them and the objects I saw.
