AIR INTELLIGENCE INFORMATION REPORT

SUBJECT <i>AREA REPPED ON UNCONVENTIONAL FLYING Objects Report (REVERSE)</i>		FROM (Agency)

SUMMARY: (Enter definite summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 110—Part II.)

At 1325Z, 21 August 1952, a report was received from the Baltimore Ground Observer Corps Filter Center stating that a report had been made by Mr. [REDACTED], who observed an unconventional object at 0455Z, 20 August 1952 while traveling on U. S. Highway 13, south of Salisbury, Maryland. Object was described as a bright bluish, green light traveling at a great speed from the north to the south. Object was fuzzy around the edges, and glowed like the face of a radium watch dial. Object was in view between one and three seconds. Mr. [REDACTED] called the Baltimore Filter Center at his own expense and stated, "This is no prank".

This report tends to lend further credence to the unconfirmed existence of unconventional objects in the sky.

The directions given are on the assumption that Route 19 runs due north and south at the motel.

When looking out the window I could only see vertically about 20 degrees of the sky between the boughs of a pine tree and the tips of a field of corn, the first row of which were some twenty feet distance. The window was about 3 feet from the bed and the edge of the window was about 1 1/2 feet from the head of the bed. Therefore I was looking thru the screened window at a slight "nosesterly" angle.

The "body" of light appeared from another direction possibly south or south-southeast. It was in view for about one second or as I now think slightly longer. It occupied in the sky about the same space as a dime held at arms length or just another man about the size of the moon when the moon is highest did not appear to be reflected light of any kind I have ever seen.

The light was brilliant and seemed to "sparkle" but strangely it did not seem to light up the clouds or countryside as moonlight would have done. It suddenly disappeared without touching the horizon, seemingly south and west of Cross Linn.

The countryside is very flat, Eden, one of the highest communities, is only 9 feet above sea level. The sky was overcast but how high the clouds were I do not know. The object was beneath those clouds. How large the object would depend on how far it was from it. I think it was at least one mile to the west and probably much more. Therefore, if I am correct in this, the object was much larger than the largest commercial airliner. (I live near Teguadilla airport and I am only too conscious of their size).
