10. BRIEF SUMMARY OF SIGHTING

Round white light traveled in straight line at 200mph. Sequence was repeated three minutes later.

11. COMMENTS

1. White light blinking on and off - pilot light on balloons.

TENTATIVE  
OBSERVERS QUESTIONNAIRE

3418.01

01  
1-8 ✓

SECTION A

1. When did you see the object:

1.1 Date: 2 / 7 / 52  
Day Month Year

1.2 Time of day: 2330 A.M. or P.M. (Circle One)  
Hrs. Min.

1.3 Time Zone: (Circle One):

- a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other \_\_\_\_\_

(Circle One): a. Daylight Saving  
b. Standard

1.4 Circle one of the following to indicate how certain you are of your answer to the above question 1.2:

- a. Certain  
b. Fairly certain  
c. Not very sure  
d. Just a guess

2. Where did you see the object?

Chadwell / Chadwell / Illinois / USA  
Postal Address City or Town State Country

3. Where were you located when you saw the object:

(Circle One): a. Inside a building  
b. In a car  
c. Outdoors  
d. In an airplane  
e. At sea  
f. Other \_\_\_\_\_

3.1 Were you:

- (Circle One): a. In the business section of a city?  
b. In the residential section of a city?  
c. In open countryside?  
d. Flying near an airfield?  
e. Flying over a city?  
f. Flying over open country?  
g. Other \_\_\_\_\_

4. How did you happen to notice the object? I was driving in  
an open area at night light was  
dark the dark night and it was
5. When did you report to some official that you had seen the object?  
4 2 2  
 Day Month Year

SECTION B

6. What were you doing at the time you saw the object? Driving

6.1 What had you been doing for the 30 minutes before you saw the object? Try to list the activity or activities, and the approximate amount of time spent on each.

Driving a car

7. Were you moving at any time while you saw the object? (Circle One):  
Yes or No.

If you answered YES, then complete the following questions.

7.1 What direction were you moving?

- (Circle One):
- |              |                |
|--------------|----------------|
| a. North     | e. South       |
| b. Northeast | f. Southwest   |
| c. East      | g. <u>West</u> |
| d. Southeast | h. Northwest   |

7.2 How fast were you moving? 30 miles per hour.

7.3 Did you stop at any time while you were looking at the object?

(Circle One): Yes or No

8. What direction were you facing when you first saw the object?

- (Circle One):
- |              |              |
|--------------|--------------|
| a. North     | e. South     |
| b. Northeast | f. Southwest |
| c. East      | g. (West)    |
| d. Southeast | h. Northwest |

8.1 What direction were you facing when the object disappeared?

- (Circle One):
- |              |              |
|--------------|--------------|
| a. North     | e. South     |
| b. Northeast | f. Southwest |
| c. East      | g. West      |
| d. Southeast | h. Northwest |

8.2 Circle one of the following to indicate how certain you are of your answer to the above two questions. (8 and 8.1).

- |                   |                  |
|-------------------|------------------|
| a. <u>Certain</u> | c. Not very sure |
| b. Fairly certain | d. Just a guess  |

9. Were you wearing eye glasses when you saw the object? (Circle One):

Yes or No

10. How was the object seen?

- (Circle One):
- |                         |                              |
|-------------------------|------------------------------|
| a. Through window glass | e. Through theodolite        |
| b. Through windshield   | f. Through sun glasses       |
| c. Through binoculars   | g. <u>Through open space</u> |
| d. Through telescope    | h. Other _____               |

11. What do you remember about the weather conditions at the time you saw the object?

11.1 CLOUDS (Circle One)

- a. Clear sky  
 b. Hazy  
 c. Scattered clouds  
 d. Thick or heavy clouds  
 e. Don't remember

11.2 WIND (Circle One)

- a. No wind  
 b. Slight breeze  
 c. Strong wind  
 d. Don't remember

11.3 WEATHER (Circle One)

- a. Dry  
 b. Fog, Mist, or light rain  
 c. Moderate or heavy rain  
 d. Snow  
 e. Don't remember

11.4 TEMPERATURE (Circle One)

- a. Cold  
 b. Cool  
 c. Warm  
 d. Hot  
 e. Don't remember

18. Did the object at any time:

18.1 Move behind something? (Circle One) Yes No Don't know

IF you answered YES, then tell what it moved behind.

\_\_\_\_\_

18.2 Move in front of something? (Circle One) Yes No Don't know

IF you answered YES, then tell what it moved in front of.

\_\_\_\_\_

18.3 Blend with the background? (Circle One) Yes No Don't know

19. Which of the following objects is about the same actual size as the object you saw? (Circle One):

- a. Pea
- b. Baseball
- c. Basketball
- d. Bicycle wheel
- e. Office desk
- f. Automobile
- g. Small airplane
- h. Large airplane
- i. Dirigible
- j. Other \_\_\_\_\_

19.1 Circle one of the following to indicate how certain you are of your answer to Question 19.

- a. Certain
- b. Fairly certain
- c. Not very sure
- d. Uncertain

20. Try to tell the following things about the object:

20.1 How high above the earth was it? \_\_\_\_\_ feet.

20.2 How far was it from you? \_\_\_\_\_ feet or \_\_\_\_\_ miles *1.5 miles*

20.3 How fast was it going? \_\_\_\_\_ miles per hour.

20.4 Circle one of the following to indicate how certain you are of your answer to the above questions:

- a. Certain
- b. Fairly certain
- c. Not very sure
- d. Just a guess

21. How did the object disappear from view?

- (Circle One):
- a. Suddenly
  - b. Gradually
  - c. Other \_\_\_\_\_
  - d. Don't remember

SECTION D

22. In the following sketch, imagine your eye at the point shown. Place an "A" on the curved line to show how high the object was above the horizon when you first saw it. Place a "B" to show where it was when you last saw it.

23. In the following sketch place an "A" at the position the object was when you first saw it, and a "B" at its position when you last saw it.

24. Draw a picture that will show the motion that the object made. Place an "A" at the beginning of its path and a "B" at the end of its path.

- 25. Draw a picture that will show the shape of the object. Label and include in your sketch any details of the object that you saw, and place an arrow beside the drawing to show the direction the object was moving.

The dot was circled in blue.

Consequently, I was not out of the house.

SECTION E

- 26. Was this the first time that you have seen an object like this? (Circle One):  Yes  No

26.1 IF you answered NO, then when, where, and under what conditions did you see other ones? \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

- 27. In your opinion what do you think the object was and what might have caused it?

At first, I thought it was a body of a meteorological phenomenon - but now I do not have any rational explanation for it.

- 28. Give the following information about yourself:

NAME: Al Last Name First Name Middle Name

ADDRESS: 127th St Street City Zone State Calif

TELEPHONE NUMBER: 788-1234

What is your present job? Self-employed

Age 22

Sex M

Last School Attended San Francisco State

Year of last attendance at this school 1950

29. Was anyone else with you at the time you saw the object?

(Circle One): Yes or No

29.1 IF you answered YES, did they see the object too?

(Circle One): Yes or No

29.2 Please list their names and addresses:

~~\_\_\_\_\_~~  
14411/2 Rd., 127 P.H. Tagley  
Lake 198, Chardale, 17, 1988

30. Please add here any further comments which you believe are important.  
Use additional sheets of the same size paper if necessary.

Dear Sir:

Your recent report of unidentified aerial phenomena has been received by the Air Technical Intelligence Center. Inclosed is a questionnaire, which, when completed by you and returned in the inclosed, self-addressed envelope, will aid in standardising the data and will provide a complete record of the occurrence.

Your interest in reporting the matter and your public spirited desire to be of service are greatly appreciated.

Sincerely yours,

  
ROBERT E. KENNEDY  
Major, USAF  
Air Adjutant General

SUMMARY: (Brief concise summary of report. Give significance in final one- or two- sentence paragraph. List indicators of lower left. Begin text of report on AF Form 112—Part II.)

3 June 52

While on TDY at Guayaquil, Ecuador, M/Sgt [redacted] observed flying objects unconventional by present standards at Puna Island, Ecuador. The objects appeared to be approximately 50 feet in diameter seen from an estimated distance of ten miles and maintained an estimated altitude of from 30,000 to 40,000 feet. No known meteorological disturbances existed which could have accounted for the sighting.

M/Sgt [redacted] is considered to be reliable, his observations are considered of sufficient significance to be worthy of investigation.

SECURITY INFORMATION

DEFENSE-SAN ANTONIO

DETAILS:

1. This investigation is opened at the direction of the District Commander, predicated upon information furnished by 1st Lt WILLIAM L. McCLELLAND, Assistant Adjutant, Sandia Base, New Mexico, concerning the observation of an unidentified aerial object by Captain CLAUDE W. McELWAIN.

AT ALBUQUERQUE, NEW MEXICO

2. The following report was made by Captain CLAUDE W. McELWAIN of Field Command, Armed Forces Special Weapons Project, Sandia Base, New Mexico:

0230 Z

"At approximately 1930 MST on 3 August 1952 while car riding with my family, my son [redacted], age seven, noticed a brilliant glow in the western skies. At first I was willing to discount it as the evening star. Then I decided to observe it through the binoculars (7 x 50). We observed it for about 15 minutes. The object appeared, to the naked eye, to be an unusually bright star and at first to be hovering or motionless. With the glasses it appeared oval shaped with an appendage tail or exhaust to the right of the main body. It disappeared behind the horizon. By comparison and without reference or known factors, the object looked about like an amber head light of an automobile at a distance of about 300 yards, when looking at the head light from an angle—not head on. There was just one object and appeared (to be going due west.) This object was observed from about 1930 to 1945 MST 3 August. My location was Buena Vista at Anderson Avenue about six blocks due north of the Lovelace Clinic, city of Albuquerque. If it had been a plane at 10,000 feet, I would have guessed its speed at 350 mph. If this object was 5,000 feet its speed could have been 1700 - 1800 mph. The size would be hard to determine under the circumstances. I do not feel that I have any particular qualifications as an observer but I try to be realistic and practical in my observation and projection of the mental image. I do have over ten years of active military service and did take a course in aircraft identification in 1942. I was on duty with the Air Force for three years. The sky was very clear with the exception of a few scattered cloud banks. The wind was about 20 mph, from the east. The sun had gone down but it was not dark yet. I saw no metallic or physical properties at all. There was no fragment of sound that I was able to detect. I carry two pairs of binoculars and two cameras at all times and did not feel that, due to the distance involved, a photograph could be taken with either of the two types of cameras I have. This observation was reported to Major ELLIOT, Intelligence and Security Division, at approximately 2000 MST 3 August 1952 and to Major WADE at 1030 MST 4 August 1952. Other witnesses present were Mr. and Mrs. JACKSON who live at the corner of Buena Vista and Anderson, Albuquerque, (he is a Security Guard at Sandia Base); Mrs. [redacted] wife of the undersigned, and a number of children."

3. Captain McELWAIN furnished sketches as to his observation of the object and his location, which are being attached as an inclosure to this report.

|-------------------|------------------|
| a. Certain        | c. Not very sure |
| b. Fairly certain | d. Just a guess  |

9. Were you wearing eye glasses when you saw the object? (Circle One):

Yes or No

10. How was the object seen?

- (Circle One):
- |                         |                        |
|-------------------------|------------------------|
| a. Through window glass | e. Through theodolite  |
| b. Through windshield   | f. Through sun glasses |
| c. Through binoculars   | g. Through open space  |
| d. Through telescope    | h. Other               |

11. What do you remember about the weather conditions at the time you saw the object?

11.1 CLOUDS (Circle One)

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds
- e. Don't remember

11.3 WEATHER (Circle One)

- a. Dry
- b. Fog, Mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

11.2 WIND (Circle One)

- a. No wind
- b. Slight breeze
- c. Strong wind
- d. Don't remember

11.4 TEMPERATURE (Circle One)

- a. Cold
- b. Cool
- c. Warm
- d. Hot
- e. Don't remember

SECTION C

12. Estimate how long you saw the object? \_\_\_\_\_ 2-4  
 Hours                      Minutes                      Seconds

12.1 Circle one of the following to indicate how certain you are of your answer to Question 12:

- a. Certain                      c. Not very sure  
 b. Fairly sure                      d. Just a guess

13. Did the object look: (Circle One) Solid or Transparent?

14. Did the object at any time:

(Circle One for each question)

14.1 Change direction?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.2 Change speed?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.3 Change size?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.4 Change color?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.5 Break up into parts or explode?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.6 Give off smoke?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.7 Change brightness?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.8 Flicker, throb, or pulsate?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>
14.9 Remain motionless?	<u>Yes</u>	<u>No</u>	<u>Don't know</u>

15. Did the object give off a light? (Circle One): Yes No Don't know

15.1 IF you answered YES, what was the color of the light? white

16. Tell in a few words the following things about the object?

16.1 Sound \_\_\_\_\_

16.2 Color white

17. IF there was MORE THAN ONE object, then how many were there? N/A  
 Draw a picture of how they were arranged, and put an arrow to show the direction they were traveling.

18. Did the object at any time:

18.1 Move behind something? (Circle One) Yes No Don't know

IF you answered YES, then tell what it moved behind.

---

18.2 Move in front of something? (Circle One) Yes No Don't know

IF you answered YES, then tell what it moved in front of.

---

18.3 Blend with the background? (Circle One) Yes No Don't know

19. Which of the following objects is about the same actual size as the object you saw? (Circle One): *Since I have no idea how far away the object was, I think that this*

- |                  |                   |
|------------------|-------------------|
| a. Pea           | f. Automobile     |
| b. Baseball      | g. Small airplane |
| c. Basketball    | h. Large airplane |
| d. Bicycle wheel | i. Dirigible      |
| e. Office desk   | j. Other _____    |

19.1 Circle one of the following to indicate how certain you are of your answer to Question 19.

- |                   |                  |
|-------------------|------------------|
| <u>a. Certain</u> | c. Not very sure |
| b. Fairly certain | d. Uncertain     |

20. Try to tell the following things about the object:

20.1 How high above the earth was it? 1000 feet.

20.2 How far was it from you? 1000 feet or 1000 miles

20.3 How fast was it going? \_\_\_\_\_ miles per hour. *3000 ft/sec*

20.4 Circle one of the following to indicate how certain you are of your answer to the above questions:

- |                   |                  |
|-------------------|------------------|
| <u>a. Certain</u> | c. Not very sure |
| b. Fairly certain | d. Just a guess  |

21. How did the object disappear from view?

- (Circle One): a. Suddenly c. Other \_\_\_\_\_  
 b. Gradually d. Don't remember

SECTION D

22. In the following sketch, imagine your eye at the point shown. Place an "A" on the curved line to show how high the object was above the horizon when you first saw it. Place a "B" to show where it was when you last saw it.

23. In the following sketch place an "A" at the position the object was when you first saw it, and a "B" at its position when you last saw it.

24. Draw a picture that will show the motion that the object made. Place an "A" at the beginning of its path and a "B" at the end of its path.

B ————— A
