COUNTRY U. S. A.	REPORT NO. 112-500002	(LEAVE BLANK)
AIR INTELLIGENCE INFORMATION REPORT		
SUBJECT FLYING		
AREA REPORTED ON Meridian, Mississippi		FROM (Agency) Headquarters, 3615th Pilot Training Wing, Craig Air Force Base, Ala. (Int. Sec)
DATE OF REPORT 5 September 1952	DATE OF INFORMATION 27 August 1952	EVALUATION B-2
PREPARED BY (Officer) JAMES R. MIDKIFF M/Sgt.		SOURCE 1st Lt. LOUIS F. BECHTOLD AF 707 645 1st Lt. ROBERT J. KRISS AF 2059796
REFERENCES (Control number, directive, previous report, etc., as applicable) AF Ltr 200-5 dtd 29 April 1952		
SUMMARY: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)		
<p>On the night of 27 August 1952, the two officers listed as the source of this information were flying an F-51 airplane at 7,000 feet above the airport at Meridian, Mississippi. Their speed was 200 MPH and their heading was 120 degrees. At 2015 hours they saw a pale green light moving west at about 10,000 feet.</p> <p>Source states that this light resembled an airplane's navigation light. It was traveling at great speed and left no trail. No sound was audible and no method of propulsion could be seen.</p> <p>The object remained in view for no more than ten seconds. Source states that at first it was above and to the right. It immediately turned north and accelerated quickly out of sight.</p> <p>The weather at the time was slightly hazy with ceiling unlimited. The wind was from 60 degrees ad about 15 MPH. This sighting cannot be explained by any known meteorological or other condition or activity. There are no photographs or other material evidence of the nature or existence of the object. No effort was made to intercept it.</p> <p>Students in F-51 aircraft appeared at intervals of approximately 3 minutes. They were easily distinguished from the object reported. No other aircraft were reported in the vicinity.</p> <p>These officers seem to be men of sound judgement and stable emotions. There is no apparent reason to doubt their report.</p>

AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency) Headquarters, 3615th Plt Tng Wg, Craig AFB, Alabama	REPORT NO. IR-52-52	PAGE 1 OF 1 PAGES
---	------------------------	-------------------

STATEMENT

The following statement is submitted in accordance with paragraph 7, c, AF letter 200-5 dated 29 April 1952.

1. The object seen was a pale green light resembling the navigational light of an aircraft. Its size was undetermined but it appeared to be 2,000 to 3,000 feet higher than our own aircraft which was at 7,000 feet. There was no sound or exhaust. The object was traveling at a great rate of speed.
2. The object was first observed at 2015 hours, 27 August 1952, and observed for a period of about 5 to 10 seconds.
3. The object was observed with the naked eye from an F-51 aircraft. Our speed was 200 MPH at an altitude of 7,000 feet.
4. The object was seen over Meridian, Mississippi. It was observed heading west and passed over at about 10,000 feet to our right. It turned to the north and rapidly accelerated until it was out of our view.
5. I have been a rated pilot in the USAF since May 1944 and flew combat in the Pacific in World War II. I was separated from the service in January 1946 and recalled in May 1951. I have 1,500 hours most of it single engine time.
6. The weather at the time was slightly hazy, and the wind was from 60 degrees at 15 MPH.
7. There were no activities or conditions meteorological or otherwise that can account for the sighting.
8. No photographs or other physical records were made.
9. No attempt was made to intercept the object.

Only F-51 airplanes flown by students in cross country were in the area. They could not be confused with the object reported.

AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency) Headquarters, 3615th Plt Tog Sq, Craig AFB, Alabama	REPORT NO. IR-50-52	PAGE 1 OF 1 PAGES
---	------------------------	-------------------

STATEMENT

The following statement is submitted in accordance with paragraph 7, c, A.F. 200-5 dated 29 April 1952.

1. The object I sighted was a pale green light of unknown size, somewhat resembling a navigation light of an aircraft. There was no sound or exhaust and the object was traveling at great speed.
2. It was sighted at 2015 on 27 August 1952, for a period not longer than 10 seconds.
3. I was flying as control aircraft in a F-51 for a student round robin cross country, and sighted the object visually.
4. At the time of sighting I was flying at 7,000 feet on a heading of 120 degrees at an indicated air speed of 200 M. P. H. I observed this object heading west at what appeared to be about 10,000 feet altitude (above and to my right). My location at the time of sighting was directly above the airfield at Meridian, Mississippi. Almost immediately after initially sighting this object it began a turn to the right or north and rapidly accelerated out of sight. As previously mentioned in this report it was not in sight for over 10 seconds.
5. I have been a rated pilot since January 1944. I was separated in December of 1945, and recalled May 1951. I flew 53 combat missions in F-47 Fighter Bomber in the European Theater of Operation in World War II and served 6 months as instructor in fighters. Since recall in May 1951, I have been an advanced single engine instructor. I have approximately 1,600 hours total flying time of which 720 hours is fighter time.
6. At the time of sighting the weather was slightly hazy with unlimited ceiling and the wind was from approximately 60 degrees at 15 M. P. H.
7. To my knowledge there was no activity or condition of any kind which could account for the sighting.
8. I have no physical evidence of any kind supporting existence of this object.
9. I took no interception action. Only F-51 airplanes flown by students in cross country were in the area. They could not be confused with the object reported.
