12. BRIEF SUMMARY OF OBSERVATION				13. COMMENTS					
Round silver object remained motionless for 30 min.. Some sources claim object had two lights. Descriptions vary.				1. Although this sighting takes place 1 hr. & 15 min. after a scheduled release, the following indicates strongly the object is a balloon. a. Round & silver colored b. Apparently motionless c. Sudden disappearance after 30 min. probably means the balloon burst at altitude. 2. Possibly unscheduled release.
