Flying Saucer Report Seen over Atlantic City and Pocomo Naval Air Station

Atlantic City and Pocomo, New Jersey

Det #3, 14670th Ord Oper Sq, Trenton, New Jersey

25 July 1953

23 July 1953

REINHOLD J SWALLOW JR

A/2C USAF

AFI 200-5, 29 April 1952 Intelligence

0145-02

At 00:45 on 23 July 1953, the Trenton Filter Center received a call from a Mr and Mrs [REDACTED], 16 Beach Haven, Atlantic City, Atlantic City. Mr and Mrs [REDACTED] gave me the following message:

They were on the boardwalk at Atlantic City along with hundreds of people when they observed these blister like objects coming out of the clouds, with a vapor trail behind them. These objects were moving at a terrific speed and were flying between 5,000 ft to 8,000 ft. After observing three pairs of these objects, everyone concluded that they were Flying Saucers. These flying saucers came out of the clouds two at a time and there were 10 pairs. We established a track out of the report, and passed this information word for word to Calico, where the information was received by 1/1C Thomas A. Tatum, AF 2477 1513, at 00:56 Z.

These objects were also reported to the Pocomo Naval Air Station at 00:45 Z by Paul Learn, reporter for the Atlantic City press. He gave the same information as Mr and Mrs [REDACTED]. I received a call from Pocomo Naval Air Station, and I received this information from A/2C Charles F. Collins, Pleasantville 4060.

The last we saw of these objects was at 01:35 Z at 00:56 Z heading north. This track was K 209, Mary, Unknown, High. Calico had interceptors in this area and vectored them to this location but the pilots reported at 01:07 Z that they had not seen anything unusual in the area. We received nothing else on this track.
