17 August 1953

Peoria, Illinois

Description

Two civilian observers at different locations in Peoria saw an unidentified flying object at 1445 CST 17 August 1953. The object appeared the size of a baseball with a very brilliant white color. No trail or exhaust was observed and the object seemed to be suspended in the air and then slowly moved away. The speed of the object was unknown. The object was observed south of Peoria and moved off south-southeast. At the time of this sighting, personnel of the 791st AC&W Squadron, Hanna City, Illinois, observed a half-moon shaped object in the same vicinity. Total time of observation was 30 minutes.

Discussion

The AC&W Squadron at Hanna City did not pick up any unusual tracks on radar in the area mentioned. Checks with local weather station for possible release determined that there were no weather balloons in the area. Checks made with airfields in the vicinity precluded that there were no aircraft in the area. Check with upper air balloon tracks reveal that there was an upper air research balloon over Peoria at the time of sighting.

Conclusion

Was balloon.

Ref your message 791-17-H-02 and 172343Z Aug 53. The Air Technical Intelligence Center requests the following info be obtained and included on the AF Form 112 required by AFL 200-5: 1) Obtain azimuth and elevation readings from the observers. 2) Submit chart of the area pinpointing locations of the observers. 3) Time of sighting is near the scheduled balloon release time. Check with any agencies releasing balloons in the area of sighting to determine possibility of a weather balloon causing the sighting. 4) Check with local air fields and determine type and location of any aircraft in the area at the time of sighting. 5) Did your radar pick up the unidentified object?

Request that this info be forwarded as soon as possible.

In reply cite Project Blue Book.

AIR INTELLIGENCE INFORMATION REPORT

Subject Report of Unknown Flying Object

Area Reported On Peoria, Illinois From (Agency) 791st AC&W Squadron, Hanna City, Illinois

Date of Report 21 August 1953 Date of Information 18 August 1953 Evaluation P-6

Prepared by (Officer) WALTER J BARROW Jr 2nd Lt, USAF Source [REDACTED]

References (Control number, directive, previous report, etc., as applicable)
AF Form 112 dated 19 Aug 53, Same subject.

Summary: (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)

Reference message received from Air Technical Intelligence Center, Wright-Patterson AFB, Ohio, the following additional information is rendered on Report of Unknown Object received by this Unit from Robert F. Webster and Margaret M. McIlvaine on 18 August 1953.

Object was observed at approximately 120 degrees (from true North) from position where [REDACTED] was observing object. In reference to elevation from observers position, it was estimated object was approximately 35 degrees above the horizon. [REDACTED] report coincides with information above.

This organization did not pick up any unusual tracks on Radar in area mentioned.

A check was made with local weather station for possible release of weather balloon. Was informed no weather balloons had been released.

No aircraft was in same area at time of sighting.
