SECRET INTELLIGENCE REPORT

1. **SYNOPSIS:** District Intelligence Officer, Eleventh Naval District, advised by letter two U. S. Navy pilots sighted ten unknown objects flying in formation.

2. **DETAILS:** This office is in receipt of letter dated 21 January 1954, from the District Intelligence Officer, Eleventh Naval District, San Diego, California, signed by [REDACTED] and written in compliance with AF Letter No. 200-5, dated 29 April 1952. Above letter advised that two U. S. Navy pilots while orbiting over El Cajon, California, on a southerly head (awaiting use of Brown Field facilities) sighted ten unidentified objects in the east on an easterly head.

3. The objects were oval (slightly indefinable), of an unknown size and silvery in color, flying in formation. There were no trails and the propulsion system is unknown. The speed was greater than 400 knots and objects disappeared in level flight.

4. The objects were observed 24/12/53 December 1953, for a period of five minutes by Lt. [REDACTED] and Lt. [REDACTED], both attached to VF-122, USNAS Miramar, California. Pilots were flying F9F 2's and both have over 2 1/2 years flying experience. Commanding Officer of VF-122 felt that both pilots were reliable up to this time. The sighting was visual while on a southerly head over El Cajon at 20,000 feet and speed of 350 knots. Objects were on easterly head at an undetermined distance and an altitude greater than 50,000 feet.

SPOT INTELLIGENCE RPT 18D 24-317, dated 8 Apr 54, Subject: Unidentified Flying Objects Sighted 24 Dec 53, El Cajon, California, by Naval Aviators

5. The weather was clear with ceiling and visibility unlimited with little or no wind. There was no meteorological condition which would account for sighting. Interception was impossible due to greater speed of objects. There was other air traffic in the general area at Brown Field; however, there were no reports from them.

6. ACTION: No action will be taken by this District. A copy of this report is being made available to the Air Technical Intelligence Center, Wright-Patterson Air Force Base, Dayton, Ohio.
