WARNING: This document contains information affecting the national defense of the United States within the meaning of the Espio-

On 25 February 1954, at 1645Z, Mr. [REDACTED] and Mr. [REDACTED] of Grumman Aircraft Corporation, observed from their aircraft, two (2) bright yellow objects at 4,000 feet over the area of Huntington Station, Long Island, New York. The objects appeared round and about 3 feet in diameter with no sound, trails or unusual features. The objects, which were observed from 40 seconds to 60 seconds, seemed to maintain the same distance from the observers for approximately thirty (30) seconds and then they disappeared. Weather at 8,000 feet was broken overcast with eight (8) miles visibility.

At 1625Z, Mr. [REDACTED] sighted similar objects on an easterly heading, but failed to mention the fact to Mr. [REDACTED] until the 1645Z sighting.

There were other aircraft in the area at the time of the sighting.

Mr. [REDACTED] and Mr. [REDACTED] are employed by the Grumman Aircraft Corporation, Bethpage, Long Island, New York. Phone: [REDACTED]

Mr. [REDACTED] is a pilot and lives at Westbury, Long Island, New York. Phone: [REDACTED]

The address of Mr. [REDACTED] could not be obtained.

HYDROGRAPHIC BULLETIN

METEORS

NORTH ATLANTIC

The Master of the Greek SS. *Hellenic Sky* reports that at 0100 G. M. T., February 27, 1954, in lat. $34^{\circ}38'$ N., lon. $60^{\circ}05'$ W. he observed a very bright meteor nearly full-moon size. It was moving to the west and finally exploded with a loud noise and a brilliance so great that the whole sky was illuminated for several seconds.
