UNIDENTIFIED FLYING OBJECTS

TO: Commander
Air Force Missile Test Center
Patrick Air Force Base, Florida
ATTN: Provost Marshal

1. The following information is in confirmation of information furnished verbally to your Command on 17 June 1954, and, also, to facilitate compliance by your Command in accordance with instructions outlined in Paragraph 7, AFI 200-8.

2. On 18 June 1954, at approximately 1030 hours, this office was requested by the Provost Marshal, Air Force Missile Test Center, to contact the Air Force Missile Test Center Intelligence Officer, regarding the sighting of unidentified flying objects near Indialantic, Florida.

3. On 18 June 1954, Major A. C. SHALLOT, Intelligence Branch, AFMTC, advised that on 18 June 1954, Mr. ██████████, Civilian, RCA Services, Patrick Air Force Base, Florida, had reported that at 2130 hours, 18 June 1954, ██████████ was looking out over the Atlantic ocean, East of Neptune Hall, Indialantic, Florida. The weather was overcast, with intermittent showers. An intense white beam, brighter than a flashlight beam, but approximately the same size as a large flashlight beam, was noted shining from a point of approximately 100 yards offshore. The light flashes lasted for approximately four (4) seconds and rotated clockwise for approximately 10 cycles. After an approximate three (3) minute interval, the light began to cycle again for approximately 10 cycles. ██████████ turned on the spotlight of his automobile and directed the spotlight at the area of the lights. At this time, the light quit cycling and nothing could be seen. The lights did not reoccur after the spotlight was turned off. A check of the local charts and tide tables indicate approximately forty (40) feet of water at the site of the above occurrence at the time it occurred.

4. On 18 June 1954, this office was requested to determine circumstances surrounding an entry in the Air Police Desk Sergeant's Log, concerning the sighting of an unidentified aerial object on 18 June 1954, by an Air Policeman on guard duty at Patrick Air Force Base. Entry 2740, recorded at 2135 hours.

District Commander

object sighted at 2152 hours appeared to be at 1,000 ft. altitude, over the Vero Beach VOR transmitter, with no definite silhouette. The object appeared to descend below the trees and arose again. PERRY stated that the operations records reflect no aircraft known to be operating in the area of Patrick AFB at the time of the sighting. S/Sgt BENEDETTI, previously referred to, Weather Detachment, Patrick AFB, advised the following information is contained in the weather observer's report for 15 June 1954:

Observation made at 2129 hours, EST
 Scattered clouds at 4,000 feet
 Overcast at 12,000 feet
 Visibility 15 miles
 Wind - SSW at 5 miles per hour
 Altimeter - 29.950 inches
 Surface temperature - 74.1 degrees Fahrenheit
 Weather balloon released at 2200 hours
 Wind at 1,000 ft. altitude - SSW at 10 miles per hour
 Wind at 2,000 ft. altitude - SSW at 11 miles per hour.

7. On 17 June 1954, this office was advised by Major WENDELL F. MOSELEY, 1058CA, Patrick Air Force Base, Florida, that at 2325 hours, EST, 16 June 1954, he sighted an unidentified aerial object from the aircraft parking ramp, adjacent to the southwest corner of Hangar 300, Patrick Air Force Base, Florida. MOSELEY called two airmen from Base Operations to witness the object. These two (2) airmen were: STAN D. TILLEY, A/3C, AF-12430040, and JIMMIE E. DUNCAN, A/3C, AF-14406280, both of 5650th Air Base Group, Patrick Air Force Base, Florida. The object was first sighted SSW of MOSELEY, at a 20 degree angle of elevation, and as a bright light moving in a northerly direction. The object moved northward to a position directly west of observers, at an angle of elevation of 50-60 degrees. The object traveled a general northerly course during this movement and appeared to veer right and left at sharp angles while moving. The rate of speed was greater than that of an aircraft. The color of the object was a blue fluorescent, changing intermittently to white. No discernible features were visible, no sound was heard, and no trail or exhaust was discernible. The light blinked continually and at regular intervals. The object appeared to climb in a northwest direction after the stop directly west of Patrick AFB. The object appeared to continue to climb and was visible until obscured by cloud coverage at 0015 hours, EST, 17 June 1954. The object appeared to be several times larger than the brightest visible star. A full moon was visible in the sky also. Occasionally, when the light blinked and became brighter, it appeared that the object might be crescent shaped on the lower side. No air traffic was known to be in the area at the time. It was noted that Major MOSELEY is a Senior Pilot and also on duty as Airdrome Officer at the time of the sighting. Records of the Patrick Air Force Base Weather Detachment reflect the following information for 16 June 1954:

Observation made at 2330 hours, EST, 16 June 1954
 Surface temperature - 73 degrees Fahrenheit
 Surface wind - SSE at 11 miles per hour
 Clouds - 5/10 cumulus at 1700 feet

[Faint, mostly illegible handwritten notes, possibly describing a survey or observation.]

SUBJECT: (Unclassified) UNIDENTIFIED FLYING OBJECTS

15 June 1954, under Air Police Desk Sergeant's log, reflected that A/SC
LESLIE R. MANLEY, AF-14479480, 6550th Air Police Squadron, Patrick Air Force
Base, Florida, saw a bright object flying approximately 100 feet high, to the
Northwest of Post #26. The object turned from white to red, to green, and to
blue. The control tower was notified. MANLEY was interviewed on 13 June
1954, and advised that approximately 2130 hours, EST, 15 June 1954, he noticed
a glowing light in the sky, Northwest of Post #26, at approximately 200 feet
altitude, over the edge of the flying field or the Banana River. The glow
appeared nearly round in shape and resembled an aircraft landing light. The
glow was first noticed as a bright white, dimming to red and disappearing
without moving from original position sighted. The glow appeared almost
immediately in the same position, red in color, changing to bright white;
remained visible a short time and disappeared suddenly. The entire period of
visibility was approximately five (5) minutes. MANLEY stated that he saw a
small cloud drift behind object while visible. MANLEY stated that the moon
was visible south of his post and was practically obscured by clouds. The
object sighted was approximately one-fourth the size of the moon, which was
nearly full. It is noted that MANLEY has previously completed most of the
Air Force pilot's training course.

5. On 15 June 1954, S/Sgt EARL H. BENEDICT, AF-12317484, Weather
Detachment, Patrick Air Force Base, advised that the following information
is contained in the weather report for 15 June 1954:

Observation made - 2129 hours, EST
Scattered clouds at 4,000 feet
Overcast clouds at 12,000 feet
Visibility 15 miles
Wind SSW - 5 miles per hour
Altimeter - 29.950 inches
Surface temperature - 74.1 degrees Fahrenheit
Weather balloon released at 2200 hours
Wind at 1,000 ft. altitude - SSW at 10 miles per hour
Wind at 3,000 ft. altitude - SSW at 11 miles per hour

6. On 15 June, this office was requested to contact Base Operations
Officer, Patrick Air Force Base, concerning the sighting of an unidentified
object at Vero Beach, Florida, 15 June 1954. Captain WILLIAM E. PERRY, Base
Operations Officer, Patrick Air Force Base, Florida, advised that the Airframe
Officer's report for 15 June 1954 contained information to the effect that Mr.
[REDACTED] Airways Operations Specialist, CAA, Vero Beach, Florida,
reported an aerial object observed at 2124 hours, EST, 15 June 1954, located
approximately 10 miles WNW of Vero Beach. The light changed from amber to
bright white, to a green color. The aerial object was again observed at 2122
hours, EST, by [REDACTED] and Mr. [REDACTED] of Eastern Airlines. The
