UNCLASSIFIED

The following is an extract of a series of UFO sightings observed over valous sections of Europe during the period 31 July-20 Sep 54.

Reference ATIC 201047, UNCLASSIFIED

Austrie - 19 Aug 54

Small, gleaming disc-like object, about twice as large as Venus. Observed for 2 minutes. ATIC Eval: Possible Balloon.

. Finland - 14 Sep 54

Circular flying object over Helsinki at night. Flying at 800 meters (alt), it gave off an intense light and left trail of reddish smoke. Visible for 7 sec. ATIC Eval: Possible meteorite.

· France - 30 Aug 54 - Paris

A Paris resident observed a luminuous circular object flying over the city. ATIC Eval: UNKNOWN - Insufficient data.

Somme Department - 7 Sep 54

A 27 year old mason and his assistant observed a "flying saucer" at 0715 hrs, 7 Sep 54. The object was grey and was observed hovering over a field about 200 meters from the observers. The object oscillated slowly and seemed to have a closed door on its side. When the man had run about 50 meters toward it, the object began to fly away. Smoke was then visible from a sort of exhaust pips on the underside. After an oblique flight of about 15 meters, the object rose vertically and disappeared. No trace of the object was found by police. The object was about 10 meters in diameter and 3 meters in height, did not glow and departed noiselessly, trailing smoke. Visible for about 3 minutes. ATIC Eval: UNKNOWN

Alene Department - 7 Sep 54

A luminuousm red orange disc observed by three persons. The disk stopped suddenly 300-400 meters from the ground. It seemed to have on its upper side a small luminuous tail forming an integral part of the object. FIC Eval: UNKNWON - Insufficient data.

Italy - 14 Sep 54

Two inhabitants of Pitigliano report sighting of a round, white object making a strange, loud noise. The object came to a stand still and then disappeared at high speed. ATIC Eval: UNKNOWN - Insufficient data

Rome - 17 Sep 54

On the afternoon of 17 Sep 54, the control tower at the Ciampino Air Base observed a mysterious object shaped like a half a cigar flying slowly at an altitude of 1,200 meters. The object, leaving a trail of luminuous smoke, was visible for 40 minutes. ATIC Eval: Probable high Altitude a/c.

WINGRADED AT S YEAR INTERVALS, DECLASSIFIED AFTER 12 YEARS.

UNCLASSIFIED

Netherlands - 4 Aug 54

Ten fireman observed two "flying saucers" over the Hague on the ngith of 4 August between 2300 and 2400 hours. They moved at incredible speed, at times remaining motionless for as long as 30 seconds. They were flat ovals with a whitish gray light. ATIC Eval: Possible searchlight beams.

Note: During the summar and fall months of 1954, there has been a marked increase in UFO sightings throughout Europe. AFIC attributes the majority of these sightings to two basic reasons.

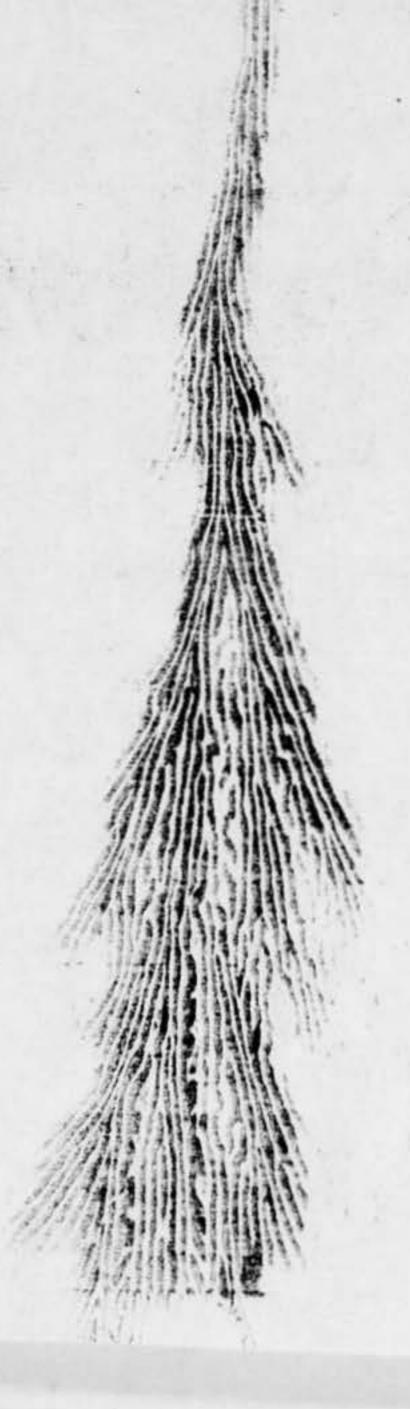

1. The European press has been quick to publish, in detail, UFO sightings which has resulted in influencing a great number of persons for personal publicity.

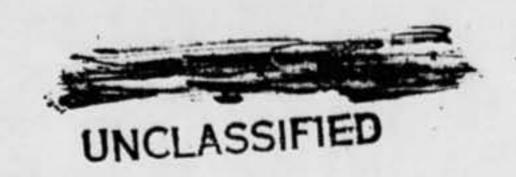

2. Mr. D. Keyhoe's book was recently translated into various foreign languages and went on sale at newstands throughout Europe during the summer of 1954.
