<p align="center">Saucer Tales Fly</p> <p align="center"><i>By Reuters</i></p> <p align="right">Lyon, France</p> <p>France's "flying saucer circus" continues to rouse interest around the country as more eyewitness accounts of "saucers," "plates" and other whizzing celestial objects keep pouring in.</p> <p>New a farmer said a creature came up to him on a lonely road, caressed his arm and burred unintelligible noises at him. Then it went off toward its "saucer," which the farmer could not describe because a green ray was directed at him and caused him to be temporarily paralyzed.</p> <p>A former artillery observer said he saw a dark-gray object hovering over the mountains near Chambéry at about 6,000 feet. He claimed he stopped his car and watched as other motorists joined in looking at the mass which suddenly "shot away like lightning and disappeared."</p> <p>Two other reports have been received in the Lyon area but they were only of the old-fashioned "saucer" which gave off bright lights and then suddenly disappeared.</p>		<p><i>Christian Science Monitor</i></p> <p><i>30 Sep 54</i></p>
