COMMENTS <u>Local Intelligence Officer evaluated this UFOB as probably Meteorite. ATSS-UFOB-208-55 seems to be the same sighting. Flight 1-C verified the time of the 208 sighting and it proved to be just one (1) minute before this sighting according to the observers. The fact that the descriptions are comparable also substantiates that they are one in the same sighting. Direction of travel the same. The fact that this object was viewed by two (2) parties at the large distance indicates an astronomical UFOB. Description also indicates above.....</u>
