7. LENGTH OF OBSERVATION Thirty (30) Minutes	8. NUMBER OF OBJECTS Three (3)	9. COURSE Up and down & Side to side
10. BRIEF SUMMARY OF SIGHTING Three (3) white objects, still in sight at the time of the preliminary report, appeared the size of a star. The objects were seen for a period of thirty minutes at the time of the report. The observer had four witnesses.		11. COMMENTS The fact that the observer had four witnesses would tend to eliminate the possibility of optical phenomenon. The description of the sighting could possibly be that of a balloon cluster reflecting the lights of the city. Sandpoint NAS releases many balloons, with winds permitting, drift over Seattle.
