7. LENGTH OF OBSERVATION Object still in sight at time	8. NUMBER OF OBJECTS One (1)	9. COURSE Stationary
10. BRIEF SUMMARY OF SIGHTING One (1), round, light colored object, size unk appeared to be at an altitude of 200 feet. The object was stationary and was still in view at the time of the report. DESCRIPTION OF SIGHTING INDICATES OBSERVATION OF STAR/PLANET. HOWEVER WITHOUT ORIGINAL CASE NO EVALUATION CAN BE MADE. NO REPORT IN FILE.		11. COMMENTS The fact that this object appeared to stand still for a long period of time and appeared close to the observer could indicate the possibility of a balloon. The reflection of the city lights could account for the color. The usual time for the launching of rawinsonde balloon is in the hour preceding the sighting. In the opinion of this hqs, the observer probably saw a balloon.
