<p>10. BRIEF SUMMARY OF SIGHTING One (1), round, silver object, the size of a baseball at arms length, was seen to fly from NW to NE, flying straight east.</p>		<p>11. COMMENTS It is possible that the observer of this sighting saw an aircraft passing to the north, and the sun being directly behind the observer, he possibly saw the reflection off a passing a/c. The duration of the sighting and the distance traveled by the object would support the aircraft theory.</p>
