10. BRIEF SUMMARY OF SIGHTING Strange light moving up and down like rotary a/c. Moved forward and back, seemed stationary at times and then would move with tremendous burst of speed. Strange light came on and off at bottom. Fluorescent blue color, had lights on edge with what appeared to be windows giving off bluish then reddish glow. High pitched hum that could be felt more than heard.				11. COMMENTS Overactive imagination, probably. Venus and Jupiter and Mars below the horizon onehour after sunset throughout the month of Aug 55. Case reported in letter form 1958. No positional data or manner of disappearance included. Case too old to investigate. Carried as other (unreliable report.)	

This object was sighted Aug # 1955 - A hour after dark
and was seen for about a hour,
It moved up and down like a rotary type aircraft, moved
forward, and in reverse. Moved so slow at times would hardly seem to
move, then with a great burst of speed would move.

2 1/2 years
old

A strange light
which would be turned
off and on, came from the
bottom. A fluorescent blue
It seemed to be played on
the ground at different times

↑ seemed to be whirling
at a great speed.

The lights on the edge
which appeared to be windows
gave off a blueish, then
redish hue of light at a
circular speed.

It gave off a very high pitched hum.
I'm very sensitive to high sounds. This humming irritated my
nerves, I felt the noise stronger than I heard.
This was in Platte County - Missouri

Insuff. Data
—

I told a few people about it, but was kidded so much I
kept still - till now.

Mrs [REDACTED]
[REDACTED]

Cleveland 5, Ohio

I do not know what I saw but It was very strange
to behold.
