In accordance with the format established by AFR 200-2, Subj: UFOB, dated 12 August 1954, the following information is submitted:

1. Description of the object:

- a. Unknown
- b. Brilliance of a number 22 photographic flashbulb fired from a distance of 25 feet.
- c. Bluish white
- d. One
- e. N/A
- f. N/A
- g. The source of light was followed by a white vapor trail during the light flash and remained visible in the air for approximately 15 minutes. Size of trail with light flash could not be determined.
- h. No sound
- i. The flash was bright enough to have permitted easy reading of a newspaper.

2. Description of course of object:

- a. Was startled by the bright flash.
- b. Angle of elevation 60 degrees, azimuth 170°.
- c. Angle of elevation 60 degrees, azimuth 270°.
- d. Light traveled on a straight course and did not seem to alter in altitude.
- e. Light flash disappearance was instantaneous but the vapor trail remained for several minutes.
- f. Light flash duration was 10 seconds but vapor trail was observed for 15 minutes before it appeared to be dispersed by the wind.

3. Manner of observation:

- a. Ground visual
- b. None
- c. N/A

4. Time and date of sighting:

a. 080130Z to 080145Z Dec 55.

b. Night

5. Location of observers: Traveling by dog sled two miles south of Kotzebue on the coast of Kotzebue Sound, (66°50'N 132°38'W).

6. Identifying information of all observers:

a. Civilian, ~~Richard [redacted]~~, 29, ~~[redacted]~~, Kotzebue, Alaska, Pastor.b. Civilian, ~~Y [redacted]~~, 46, ~~[redacted]~~, Alaska, privately employed as reindeer herder.

7. Weather and winds aloft conditions at the time and place of sighting:

a. Clear and 30 plus miles visibility, wind NNW, 15 MPH.

<u>Altitude</u>	<u>Direction</u>	<u>Velocity</u>

11. Commander, Detachment 2, 5004th AISS, Ladd AFB, Alaska.

A check with CAA weather stations at Fairbanks International Airport and at Kotzebue and with the Ladd AFB Weather Office revealed that no unusual weather conditions existed at the time of sighting and that no radiosonde balloons had been sent aloft at the time of sighting. The Geophysical Institute reported that no unusual atmospheric or astronomical disturbances had been reported in the Kotzebue area, and there were no radar tracks of unidentified objects in the 11th Air Division at the time of the sighting. From the information obtained it is believed that the object could possibly have been a meteor but due to the brilliance and duration of the flash of light and the subsequent vapor trail, the sighting cannot be definitely identified.

12. Negative.
