

PROJECT 10073 RECORD CARD

1. DATE 15 February 1956	2. LOCATION Pontiac, Michigan		12. CONCLUSIONS <input type="checkbox"/> Was Balloon <input type="checkbox"/> Probably Balloon <input checked="" type="checkbox"/> Possibly Balloon <input type="checkbox"/> Was Aircraft <input type="checkbox"/> Probably Aircraft <input type="checkbox"/> Possibly Aircraft <input type="checkbox"/> Was Astronomical <input type="checkbox"/> Probably Astronomical <input type="checkbox"/> Possibly Astronomical <input type="checkbox"/> Other _____ <input type="checkbox"/> Insufficient Data for Evaluation <input type="checkbox"/> Unknown
3. DATE-TIME GROUP Local _____ GMT 15/2325Z	4. TYPE OF OBSERVATION <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar <input type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar		
5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	6. SOURCE Civilian (GOC)		
7. LENGTH OF OBSERVATION ten minutes still in sight	8. NUMBER OF OBJECTS two	9. COURSE southerly	
10. BRIEF SUMMARY OF SIGHTING Two objects, red, orange, white and blue. Appeared to be at approximately 5,000 feet and heading south at a very slow rate of speed. Still in sight at time of report. (No Report in File)		11. COMMENTS Received by AF Form 112. The sky was completely overcast at the time of the sighting with scattered snow showers. Overcast was at 5,000 feet; therefore, the objects were below that altitude. It is the opinion of this hq that this sighting was possibly generated by balloons. Winds would substantiate this theory as they were from the NNW.
