<p>5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>	<p>6. SOURCE Civilian (father and son)</p>		
<p>7. LENGTH OF OBSERVATION fifty minutes</p>	<p>8. NUMBER OF OBJECTS one</p>	<p>9. COURSE moving in SW</p>	
<p>10. BRIEF SUMMARY OF SIGHTING One round object similar to a basket-ball, yellow in color, and appeared as would a bright light. The object moved up and down and back and forth in the SW quadrant of the sky.</p>		<p>11. COMMENTS The duration of the sighting, the description of the object, and the fact that both Sirius and Venus are located in the SW quadrant of the sky and both are very bright, lead this to the conclusion indicated above. The fact that no radar contact was made with the object although radar was covering the area at the time of the sighting.</p>
