SUMMARY (Enter concise summary of report. Give significance in final one-sentence paragraph. List inclosures at lower left. Begin text of report on AF Form 112a.)

At 2315Z 20 May 56, Columbia, Tennessee GOC Post (CF35B) reported citing four or more unknown flying objects four or five miles ESE of post between two banks of clouds on a generally clear and sunny day. Objects described as somewhat flat and round and reflecting or flashing light. Generally hovering but also moving up and down and sideways at times. Altitude estimated 20-30,000 feet. Objects in view about three or four minutes and claimed to definitely not be conventional or known aircraft by three teenage and one adult GOC volunteer.

Report immediately reported by AF instructor on duty to TWIGG and OAK HILL radar sites. TWIGG assumed control since it had a jet in the area but disclaimed any radar sightings in vicinity of Columbia, Tennessee.

AF instructor believed no other action necessary, also failed to notify Detachment Commander. Filter Center had AFR 200-2 on requisition and not aware of required follow-up reports. AF Form 112A not available at support base, mimeographed inclosure is substituted.
