10. BRIEF SUMMARY OF SIGHTING One round orange and white object, the size of a dime at arm's length. Object appeared as a brilliant bobbing light moving across the sky. Object dived, climbed and circled. Object was observed air visually for 25 minutes. No Report In File.		11. COMMENTS The location coordinates (3150Z/7353Z) of the a/c at time of sighting are incorrect. Object was actually sighted between Poughkeepsie and New Rochelle. Bobbing motion and wind direction indicate that sighting was possibly caused by a balloon.
