26/002152 6 September 1956 New York Dear Mrs. This is in reply to your letter of August 28, 1956, concerning your sighting of an Unidentified Flying Object. We are most certainly still interested in these sightings. Inclosed is a USAF Technical Information Sheet for you to complete regarding the phenomenon you have observed. Any aerial objects, so long as it remains unidentified, represents a potential threat to the security of the United States; therefore, it becomes of great concern to the Air Defense Command which is charged with aerial protection of the United States. It has, for some time now, been the joint responsibility of the Air Defense Command and the Air Technical Intelligence Center to investigate Unidentified Flying Objects and to determine whether or not they represent developments outside our own scientific knowledge. It is requested that you forward the completed form directly to: Air Technical Intelligence Center Attention: AFOIN-4E4 Wright-Patterson Air Force Base Dayton, Ohio Your interest is greatly appreciated. Sincerely, TIMOTHY R. JOHNSON Lt Colonel, USAF Directorate of Intelligence Incl:

## U. S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.
