10. BRIEF SUMMARY OF SIGHTING A ball-shaped object, intense black-white, with a fiery red trail was seen by observer on ground. It was on a downward arc from 70 to 20 dgrs. Observed for only 3-4 seconds. Exploded before it hit the ground.		11. COMMENTS Everything here suggests that the object was, without doubt, a bolide (fireball). See Dr. Olivier's and Dr. La Pas' rpts. Rpt not on file.
