

PROJECT 10073 RECORD CARD

1. DATE 14 February 1957		2. LOCATION Stead AFB, Nevada		12. CONCLUSIONS <input type="checkbox"/> Was Balloon <input type="checkbox"/> Probably Balloon <input type="checkbox"/> Possibly Balloon	
3. DATE-TIME GROUP Local _____ GMT 14/0905Z		4. TYPE OF OBSERVATION <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar <input type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar		<input type="checkbox"/> Was Aircraft <input type="checkbox"/> Probably Aircraft <input type="checkbox"/> Possibly Aircraft	
5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		6. SOURCE Control Tower Op.		<input type="checkbox"/> Was Astronomical ARCTURUS <input checked="" type="checkbox"/> Probably Astronomical <input type="checkbox"/> Possibly Astronomical	
7. LENGTH OF OBSERVATION two hours		8. NUMBER OF OBJECTS one	9. COURSE NE	<input type="checkbox"/> Other _____ <input type="checkbox"/> Insufficient Data for Evaluation <input type="checkbox"/> Unknown	
10. BRIEF SUMMARY OF SIGHTING One object shape flat plane, oval, size of nickel, color, blue center, green ring or orbit with red flashing light in center. Object appeared to be two saucers placed face to face. Object stationary about 8 minutes then was rapidly dimmed out.			11. COMMENTS The fact that the object did not apparently move for 2 hours, observed through binoculars (which magnified image) and ATIC's check that bright star ARCTURUS was in the position rptd, strongly indicates that it was a star. Rpt also states that the sky was $\frac{1}{2}$ broken cloud covered. Therefore the movement of the clouds between the objs and star would give it an appearance of flashing & odd colors
