

PROJECT 10073 RECORD CARD

1. DATE 15 February 1957	2. LOCATION Tuxedo, New York		12. CONCLUSIONS <input type="checkbox"/> Was Balloon <input checked="" type="checkbox"/> Probably Balloon <input type="checkbox"/> Possibly Balloon
3. DATE-TIME GROUP Local _____ GMT 16/0225Z	4. TYPE OF OBSERVATION <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar <input type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar		<input type="checkbox"/> Was Aircraft <input type="checkbox"/> Probably Aircraft <input type="checkbox"/> Possibly Aircraft
5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	6. SOURCE Civilian		<input type="checkbox"/> Was Astronomical <input type="checkbox"/> Probably Astronomical <input type="checkbox"/> Possibly Astronomical
7. LENGTH OF OBSERVATION 13-14	8. NUMBER OF OBJECTS one	9. COURSE SE	<input type="checkbox"/> Other _____ <input type="checkbox"/> Insufficient Data for Evaluation <input type="checkbox"/> Unknown
10. BRIEF SUMMARY OF SIGHTING One object large star shaped. Color of star. Object moved up and down and fm side to side.		11. COMMENTS Very limited data, but characteristic described are those of a balloon. This is confirmed by the fact that the direction of the object and the wind direction coincide.

February 15, 1957. Dr. [REDACTED], a well-known physician of Mamaroneck, N. Y., was watching television with his wife when she noticed a bright light outside the eastward-facing picture window in their living room. Both of them went outdoors, to the terrace, where they saw the object as "about twice as big as the landing light on a plane." It was oval, with a bright white center and a red-and-pink "aura" around the edge. It was swinging back and forth like a pendulum in an arc of about 10 degrees; the swings were north-south and rather slow. Then, from the top of the object, four smaller objects emerged in pairs, two from the right "edge" and two from the left. These rose very rapidly, were in view several seconds, and disappeared abruptly. No noise was heard. The main object was in view for nearly half an hour; then it rose straight up at terrific speed and disappeared. The view from Dr. [REDACTED]'s terrace offers an unlimited view toward the east, and the object appeared to be beyond the hills in the general direction of Rye, N. Y. The object was seen again on a number of subsequent nights, including the following.

Analyst's
Comment:

This is the sort of thing that is falling and contrary to 9F Reg 200-2. This is why we are missing something.

This report is almost 50% "UNKNOWN" comments!

Very limited data but - Prob. balloon

we should have attempted to then find some brief checks, followups, or contacts to determine identity of object
