

PROJECT 10073 RECORD CARD

1. DATE 30 July 1957	2. LOCATION Claremont, California		12. CONCLUSIONS <input type="checkbox"/> Was Balloon <input type="checkbox"/> Probably Balloon <input type="checkbox"/> Possibly Balloon  <input type="checkbox"/> Was Aircraft <input checked="" type="checkbox"/> Probably Aircraft <input type="checkbox"/> Possibly Aircraft
3. DATE-TIME GROUP Local 1900 GMT 31/0400Z	4. TYPE OF OBSERVATION <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar Binoculars <input type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar		
5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	6. SOURCE Civilian		<input type="checkbox"/> Was Astronomical <input type="checkbox"/> Probably Astronomical <input type="checkbox"/> Possibly Astronomical  <input type="checkbox"/> Other _____ <input type="checkbox"/> Insufficient Data for Evaluation <input type="checkbox"/> Unknown
7. LENGTH OF OBSERVATION 10 minutes	8. NUMBER OF OBJECTS one	9. COURSE West	
10. BRIEF SUMMARY OF SIGHTING Rounded obj with single wing, size of pea at arm's length. Dark body with yellow to orange balls of flame on either side of fuselage (through binoculars had appearance of transport fuselage with single wing centrally located.) No sound. Brightness about that of Venus.		11. COMMENTS Possibility exists obj could be some type of high performance fighter or bomber a/c. Jet nacelles often appear as flames or fire, in ball form.

<b>AIR INTELLIGENCE INFORMATION REPORT</b>		
COUNTRY OF AREA REPORT CONCERNS USA	DATE OF INFORMATION 30 July 1957	
ACTIVITY SUBMITTING REPORT Fifteenth Air Force	DATE OF COLLECTION 16 August 1957	SRI STATUS (if applicable) SRI NO. CANCELED/COMPLETE
PREPARING INDIVIDUAL Major Francis J. Breslin	DATE OF REPORT 20 August 1957	SRI NO. CANCELED/INCOMPLETE
NAME OR DESCRIPTION OF SOURCE Civilian ██████████ Age 19, male ██████████ Age 16	EVALUATION High School age boys	ADDITIONAL INFORMATION (if any) ACTIVE
REFERENCES (BAIR Subject, previous reports, etc., as applicable) BAIR Subject 460T		
SUBJECT (Descriptive title. Use individual reports for separate subjects) UFCB		
SUMMARY (Give summary which highlights the salient factors of narrative report. Begin narrative text on AF Form 112a unless report can be fully stated on AF Form 112. List inclosures, including number of copies)  The report of an unidentified flying object observed by two male civilians on 30 July 1957 in the vicinity of Claremont, California, is submitted on accompanying AF Forms 112a as required by USAF Regulation 200-2.		

*ATIR Comment:*

1. Obs. apparently from great distance
2. High speed maneuvers (20x) used
3. Aircraft were in that area and possibly
4. Object had repeat, had wings and fuselage

### AIR INTELLIGENCE INFORMATION REPORT

FROM: Agency Fifteenth Air Force	REPORT NO.	PAGE 3 OF 4 PAGES
-------------------------------------	------------	-------------------

4. Time and date of sighting:

a. ZULU time-date group of sighting: 1900PDT 30 July 1957 - 0200 31 July 1957Z.

b. Light conditions: Day.

5. Locations of observers: Front lawn of residences listed below at all times.

6. Identifying information of all observers:

- |    |   |   |
|----|---|---|
| a. | <del>████████████████████</del><br><del>████████████████████</del><br>Claremont, California<br>Height: 5'5" DOB: 4 Feb 38<br>Weight: 140 lbs Age: 19<br>Senior at Pomona College, Calif | <del>████████████████████</del><br><del>████████████████████</del><br>Claremont, California<br>Height: 5'8" DOB: 20 Jan 41<br>Weight: 110 lbs Age: 16<br>Senior at Webb School, 3 miles west of Claremont private school. |
|----|---|---|

b. N/A

7. Weather and winds-aloft conditions at time and place of sightings:

a. No clouds. Haze in distance which did not obstruct vision at height of object.

b. Wind direction and velocity not available.

c. Ceiling not available.

d. Visibility not available.

e. Amount of cloud cover not available.

f. Thunderstorms in area and quadrant in which located not available.

8. Observers claim no possibility object was meteor because it was moving too slow and traveling in wrong direction ~~for~~ an astronomical sighting.

9. At time of sighting, the incident didn't seem too unusual until observers talked to others and thought of the conditions of sighting, at which time interceptive action was too late.

10. There was a B-47 at little lower altitude than object just prior to object's passing from view. B-47 was making one thick vapor trail. B-47 not quite as far north as object when sighted and traveling east to west with possibility of crossing object's flight path after it had gone past. B-47 changed course to north but not for interception purposes. Didn't observe any exhaust flame from B-47. No sun reflection on B-47 at time of sighting.

11. Major Francis J. Breslin, Acting Chief, Combat Intelligence Division, Directorate of Intelligence, Headquarters Fifteenth Air Force. Possibility exists that object sighted could be some type of high performance fighter or bomber aircraft. Unusual balls of fire, especially on left wing, are not explainable by this officer.

*Concur*

AIR INTELLIGENCE INFORMATION REPORT

FROM: (Agency) Fifteenth Air Force	REPORT NO.	PAGE 2 OF 4 PAGES
---------------------------------------	------------	-------------------

1. Description of the object:

- a. Shape: Round with single wing. *single wing*
- b. Size: Size of a pea held at arms length.
- c. Color: Dark colored body except for yellow to orange balls of flame described in 1f below.
- d. Number: One.
- e. Formation: N/A.
- f. Features or details: Constant shape (see drawing) and color. Fire balls appeared reddish and rippled around edges. Robert Sanchez (binoculars) stated that receding it looked like a transport fuselage with single wing centrally located. On left wing tip very large ball of fire about size of plane. On either side of fuselage smaller balls of fire. Flames were round in shape. He didn't see any red fringe. No noticeable parts. No noticeable engines. No tail assembly noted.
- g. Tail, trail, or exhaust: No trails or exhaust from object.
- h. Sound: No sound that they can recall from either B-47 or object. They think it was too far away.
- i. Other: Intensity of brightness about that of Venus. Using ground observer corp handbook, figured object at approximately 30,000 feet or less.

2. Description of course of object:

- a. David Rosfeldt's parents saw object and called David. David called Robert Sanchez, who brought his binoculars. Robert's parents also saw object as did Ralph Gordon Webster, 545 West 10th Street, Claremont, California.
- b. Object was 45° to horizontal and north of observer at first sight. Object when first sighted was estimated to be over or beyond Mt Baldy (north and west of Mt Baldy).
- c. Object was 15° to horizontal and west-northwest of observer when passing from sight. It was between Pasadena and Los Angeles when passing from view.
- d. Flight path of object was straight path east to west generally.
- e. Object proceeded until beyond vision of both eye and binocular.
- f. Object was in sight approximately 10 minutes. Feel it was there much longer than their actual observation.

3. Manner of observation:

- a. Ground-visual observation.
- b. Bausch and Lomb binoculars - 20 power magnification.
- c. N/A.

*note*  
with high power glasses I saw a small red ball.
