Capt. Hector Quintanilla Jr.
Project Bluebook
Dayton, Ohio

Dear sir; Having read an article in our Sun News and Leader by Emil R. Sweil is entitled, "Probing 'Flying Saucers'." I have decided to write to you about an incident that has puzzled us since Veterans Day, Nov. 11, 1957. Mon. eve near 9:30 P.M. when my husband returned home from a meeting in Springfield Mo. and called to me to come outside to see something. We rushed

ENC

out and stood by the garage watching a bright object slowly approaching from the west. It seemed to be egg shaped, near 16' high by 12' across judging it by the size of $\frac{1}{2}$ our silo. We live on a farm seven mi. southeast of Spgfld. The light inside the object was so bright it was blinding but I do remember noticing the rib cage or framework and trying so hard to distinguish some object inside as it seemed to have paused soundlessly about 100 yards from us. Then we heard a faint purr of a motor and it zoomed away to the

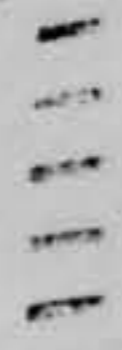

ENC

southeast and was out of sight in seconds leaving us standing there in amazement wondering what we had really seen. Thinking there would be exciting news on the TV at 10:00 PM we were astounded that there was no mention made of it and not a neighbor or anyone that we told about it had seen anything unusual. I made notes about the incident thinking sometime I would learn the proper agency to which it should be reported.

Do you have anything on record of sightings of objects on that date? We wish so much to learn more about this strange craft.

Yours truly,
~~_____~~

1. Reference the attached letter from [REDACTED] regarding an unidentified flying object report on 11 Nov 57.
2. Our records indicate no reports from the Springfield, Missouri area on 11 Nov 57. However, an FTD Form 164 may be forwarded to them to fill out. It should be stated though, that due to a lapse of many years it may not be possible to positively identify their observation.

Dear Mr. and Mrs. [REDACTED]

This is in reply to your letter of July 8, 1964, addressed to the Project Blue Book office at Wright-Patterson Air Force Base, in which you reported seeing an unidentified flying object on November 11, 1957.

Inclosed is an Air Force FTD Form 164, "U.S. Air Force Technical Information" questionnaire. If you would complete this form in as much detail as possible and return it to this Headquarters, our Project Office will endeavor to evaluate your sighting and advise you of the analysis. It must be noted, however, that due to the length of time which has elapsed, it may not be possible to positively identify this observation.

Inclosed also is a self-addressed envelope for your convenience in returning the Form.

Sincerely,

MASTON M. JACKS
Major, USAF
