SUBJECT: UFO Report

TO:

Major Friend, AFCIN-4E

1. Mr. [REDACTED] of the Dubuque Telegraph Herald, Dubuque, Iowa, called the undersigned at 1630 hours to report a UFO. The information given is as follows:

Mr. [REDACTED] is reporting a sighting by the [REDACTED] family of Hazlegreen, Wisconsin. The sighting was of three objects and was at 1750 hours, CST, 11 April 1960. Movies of the objects were taken by [REDACTED] and development shows the three objects. The sighting was from the [REDACTED] farm three (3) miles southeast of Hazlegreen, Wisconsin. (This is all the information that Mr. [REDACTED] had on the subject).

2. Mr. [REDACTED] had attempted to contact you today but apparently was unable to do so. He said that he knew you and that you would know him. He made reference to a sighting of 5 March 1960 from the same area and at the same time of day; 1750 hours. He said that you would be familiar with this case.

3. Mr. [REDACTED] is desirous of talking with you and will probably try to contact you on Monday, 18 April 1960. He had your office extension.

The same movie taken by a Wisconsin girl in 1950 was accidentally lost by the AF after an attempt to get it off their hands. It was submitted by a newspaper to Frank Air Force Base in Polaris, Wisconsin, who admitted having received it. This did not however, identify the author, but the latter claimed that it was Friend's son.

NNNN

On April 11 at Hazel Green, Wisconsin 3 bright UFOs were photographed for 20 seconds on 8 mm color film by housewife Mary Jo Curwen.

April 11; Hazel Green, Wis.—The movie film of three UFOs reported elsewhere in this issue.

NEW UFO MOVIE SUBMITTED
TO AIR FORCE ¹⁹⁶⁰

A new color movie taken April 11 by a Wisconsin woman has been turned over to the Air Force for analysis. The movie, showing three bright UFOs, has been viewed by NICAP member Charles Morris, Dubuque, Iowa, who reported sighting three elliptical UFOs March 4 (see March UFO Investigator.) Morris, who had unsuccessfully exposed several feet of movie film during his own sighting, is investigating the new case on behalf of NICAP. The UFOs are visible on about 20 seconds of 8 mm color film.

The successful color movie was taken by Mary Jo Curwen, Hazel Green, Wisconsin. She and her family all saw the UFOs. The film was first viewed by the staff of the Dubuque Telegraph-Herald, which had reported Morris' sighting and film to the Pentagon. (The AF later told the paper that Morris had seen real UFOs—not any known military or civilian aircraft.) ATIC has promised to notify the paper about its conclusions on the Curwen film. The AF answer, and more details on the sighting, will be covered in a later issue.

Analysis and Conclusions: A sighting occurred in the vicinity of Dubuque, Iowa a few days prior to this sighting, and it received quite a lot of publicity. All this publicity could account, at least partially, for this particular report. Although it was reported that ~~xxxxxx~~ the objects were photographed, the film was never received at AFIC. The claim was made that the objects showed up on the film; however, not being able to see the film, this claim is considered invalid.

Analysis Cont;

The reporting individual, a 17 year old girl, said that her brother first saw the objects, then she ~~saw~~ took some 8mm movie pictures of them. The size was reported as that of large transports, which would suggest that they were fairly close to the ~~a~~ witnesses. If this was the case, they ~~saw~~ should have been seen by other individuals, which apparently wasn't the case as there was no other reports concerning the objects. It is possible that the witnesses were influenced by the recent publicity on this subject, and it is also possible they saw three acft at a high altitude ~~for~~ reflecting the sunlight, their wings and tail obscured by this reflection. This, with a little exaggeration, could very well account for the report received. Therefore, this report is evaluated as prob acft, coupled with exaggeration.
