April 29, 1960.

Dear Sir:

This is to report a sighting of about four unidentified flying objects and four other persons saw on the night of April 28, 1960 from 8:30 to 8:43 p.m. This is not a hoax and the five of us were it seeing spots before our eyes. Here is what happened. Our names, address, ages and telephone numbers are at the end of this report.

at 8:30 p.m. I saw a red light in the sky stationary in the northeast. I call one of the persons [redacted] over to watch the object. We watched it for about fifteen seconds and then it disappeared. Then another one exactly the same appeared and did the same as the first. As I and [redacted] stood there the other three persons came over by us but the two of them left and I was there alone. Just then a very strange light came falling at a very high rate of speed and then disappeared behind some houses. Just then another object appeared in the northeast heading west at a fairly high rate of speed and then it stopped. I yelled for [redacted] everybody came. [redacted] was the first to reach me and we both saw it turn and vanish into the east. Now all of us were together when we saw the same object or one similar to it appear in the same spot. As it was [redacted] it [redacted] stopped and

urgent to turn as it did it glowed very brightly and kept on glancing for about seven or eight seconds and took off to the east at a very high rate of speed.

The objects were about 850 to 900 feet high.

It was partly cloudy with a few stars shimmering and a dull moonlight and a slight breeze.
