In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.

Dear Capitalistic Friends,

While waiting to go to church (Now 9.40AM Sunday morning Standard Mountain Time) I read "The Family Fallout Shelter MP-15. My fellow chemists and other professional bourgeoise "poh hughed" my efforts to prepare for and defend ousselves for an all out Atomic War, ever since Hiroshima.

The Powers case is your "baby".

On May 12 at 8.40 PM Standard Mountain Time I was sitting on the north ledge of the East enterance of the main building at Mark Kepel

High School in the Alhambra School District of California. From what I told on military observation of plane movements I estimate

I saw a flying saucer traveling toward me and somewhat east. If interested I can take one of your military men and show the approximate movement between a tree and a light pole about ablock away. As I first saw it in my bifocals I thought it might be a light refraction. But I took themoff and it looked like a morning star (readish like mars) except it had somewhat of a crossextension something like a spine on a enchinodermata.

I awated for it to pass by in my line of vision past the cross arm of the light pole. It disappeared. A Stat was visable in that same area that remained about the same, but no visable movement.

I have told now one about it. I was alone and I don't usually take a breather on the East side of the Night School only on the North. And I'm not making ay carbon copy.

Yours for Truth.

Dear Friends,

I've misplaced my first letter to you about the light I saw floating over a year ago at Mark Keppel High School at night. And I was surprised that you even wanted any additional information from me. I've also misplaced or lost page 1 and 2 of your forms, but like Xerces of old who couldn't sleep when he caused the Book of the Kings of Assyeria to be read to him and found out about Mordecai saving his life, I as a master seargeant for God should, since a law abiding citizen, mail you back the forms I completed months ago, and at that time I had the first page too.

If you'll give me a copy of my letter relating to this and the first forms with the others I can mail them back with any information I have stored in the SECRET part of my brain. But I really doubt if that is really important as now-a-days we are getting away from Desk Seargeants.

I'll really believe in our form of D mocracy when all rated R.O.T.C. seargeants are retired on a pension like Eismehhoures and one stenographers instead of \$83.00 monthly Social Security check which they won't even pay unless we volunteer to be executed like the Two Veterans kalled years ago in a Gulfport hospital.

Without Military training I wouldn't have been in my own church, which church I now request to admit qualified Colored Persons on one Summer Sanday in 1953. I disturbed no one but a Mississippi Poll-Tax citizen who "so efficiently" deprived me of a lawyer.
