

PROJECT 10073 RECORD CARD

<b>1. DATE</b> 25 Jun 60	<b>2. LOCATION</b> Long Island Sound, New York		<b>12. CONCLUSIONS</b> <input type="checkbox"/> Was Balloon <input type="checkbox"/> Probably Balloon <input type="checkbox"/> Possibly Balloon
<b>3. DATE-TIME GROUP</b> Local 2100 GMT 26/0200Z	<b>4. TYPE OF OBSERVATION</b> <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar <input type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar		<input type="checkbox"/> Was Aircraft <input checked="" type="checkbox"/> Probably Aircraft <input type="checkbox"/> Possibly Aircraft
<b>5. PHOTOS</b> <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<b>6. SOURCE</b> Civilian		<input type="checkbox"/> Was Astronomical <input type="checkbox"/> Probably Astronomical <input type="checkbox"/> Possibly Astronomical
<b>7. LENGTH OF OBSERVATION</b> 6-8 min	<b>8. NUMBER OF OBJECTS</b> one	<b>9. COURSE</b> S-NE rtng S	<input type="checkbox"/> Other _____ <input type="checkbox"/> Insufficient Data for Evaluation <input type="checkbox"/> Unknown
<b>10. BRIEF SUMMARY OF SIGHTING</b> Star-like object with rapid speed, appeared to make a hairpin turn returning on same course with no apparent slackening in speed. White in color with brightness of 1st magnitude star.			<b>11. COMMENTS</b> Information is very limited in nature, however most probably a high flying a/c.

PROJECT 10013 RECORD CARD

September 14, 1960

Mrs. [REDACTED]

Dear Mrs. [REDACTED]

We have not been able to determine the nature of your recent observation, and are therefore forwarding your report to:

Air Technical Intelligence Center  
Wright-Patterson Air Force Base,  
Ohio

Any further correspondence regarding this matter should be sent to them.

Thank you for your time and interest.

Respectfully,

[REDACTED]

cc: ATIC

RECEIVED

REPORT FORM FOR METEOR OBSERVATION

Information marked \* is vital

\* Place of observation: Deck of the [redacted] headed West mid-way  
between Plum Gut and Shelter Island, L.S. (Hong Island Sound).

\* Date: June 25, 1960 Time: 9 P.M.  
(Give Time Standard and whether am. or pm)

\* Accuracy of time given above:  
(e.g. say "exact", or "+1 minute", or "+5 minutes", etc.)  
+ or - 5 minutes.

\* Brightness (compared to stars, planets, moon or other useful  
standard source such as a street light at a certain distance):  
1<sup>st</sup> magnitude Star

Direction in which object was first seen:  
(To N, or SE, or WNW, etc.)

6-8 mins. Due South off port beam

\* Length or time object was seen:

6-8 mins approx.

\* Apparent direction in which object travelled:  
(N-S, SW-NE, W-N, etc.)

S to NE returning to S

Did it change direction?

Yes. from a great distance it appeared to make a "hairpin"  
turn, returning on same course approx and with no apparent

General impression of angular speed:  
(degree/sec. across sky)

Slackening in speed.

45° angle height. Speed rapid (unable to estimate exactly)

Size and shape (if any):  
(If just like a star, say "star-like")

Star-like

**Color**

White

**Did it explode, disintegrate, or suddenly vanish?**

No.

**\* Any tail or trail?**

No

**Did any sound accompany the object?**

No

**If sound followed later, give time interval:**

—

**Was it examined with binoculars or telescopes or photographed?**

No

**\*Give position of trajectory for at least two points with regard to stars if possible:**

Unable to do so.

**Any other remarks:** Seen by 3 adults and 3 children. We assumed it must have been a plane similar to the U-2 flying at such great heights it was reflecting sunlight even though the earth was in darkness. After reading newspaper reports of a similar sighting however, we thought perhaps it should be reported, even at this late date. Before it turned, we thought it a satellite. After it turned we counted our goose bumps!!
