Dear Sir  
You may have this  
information for what interest  
may be with to you  
on Aug 16 at about  
9:30 pm I saw the object (a  
chess piece, (knight) Travel piece  
by the way at a high rate of  
speed over the island for a  
few miles night and there  
was no sound of a coming  
from the sky at a high rate  
of speed and soundless motion,  
but made a slight turn south to  
turn around and came back to  
then just back to a straight  
course they were only data  
in the sky. They were  
traveling from south to north
