DATE 1 Sep to 15 Nov 60		2. LOCATION Gurnee, Illinois		12. CONCLUSIONS <input type="checkbox"/> Was Balloon <input type="checkbox"/> Probably Balloon <input type="checkbox"/> Possibly Balloon <input type="checkbox"/> Was Aircraft <input type="checkbox"/> Probably Aircraft <input type="checkbox"/> Possibly Aircraft <input type="checkbox"/> Was Astronomical <input type="checkbox"/> Probably Astronomical <input type="checkbox"/> Possibly Astronomical <input checked="" type="checkbox"/> Atmospheric refraction <input type="checkbox"/> Other <input type="checkbox"/> Insufficient Data for Evaluation <input type="checkbox"/> Unknown	
3. DATE-TIME GROUP Local 1830 GMT 2330Z		4. TYPE OF OBSERVATION <input checked="" type="checkbox"/> Ground-Visual <input type="checkbox"/> Ground-Radar <input type="checkbox"/> Air-Visual <input type="checkbox"/> Air-Intercept Radar			
5. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		6. SOURCE Civilian			
7. LENGTH OF OBSERVATION 2 hrs		8. NUMBER OF OBJECTS one	9. COURSE Varied		
10. BRIEF SUMMARY OF SIGHTING Bright Starlike object. Size of medium-sized star. Would disappear below horizon. Appeared 290°T, 30° from horizon. Disappeared 300°T, 5° from horizon.			11. COMMENTS Description leads to the conclusion that this was atmospheric refraction of a common object. Witness believes he saw same object both times rather than same phenomena both times. Motion associated with objects viewed under these conditions is not unusual and is usually not real. Refraction of star or planet.		

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

21. How large did the object appear to you as compared to an object with which you are familiar?

I never seen such a size

22. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

all of it was covered

23. Did the object disappear while you were watching it? If so, how?

at would go down behind the trees on the horizon

24. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

*at first we thought that it was a star but then
right the sight was like a bright light and
faded away and then came back to the point where it
was seen and then went to the right and then
it did not seem to be like a star or a planet
the motion was not like a star or planet*

25. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other _____

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

27. What were you doing at the time you saw the object, and how did you happen to notice it?

Looking for the object in the sky

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

28.2 How fast were you moving? _____ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |
| | | | i. Overhead |

30. What direction were you looking when you last saw the object? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |
| | | | i. Overhead |

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North (thru east) and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North 35 degrees.
- b. From horizon 20 degrees.

31.2 When it disappeared:

- a. From true North _____ degrees.
- b. From horizon _____ degrees.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One)

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One)

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

35. When and to whom did you report that you had seen the object?

7 October 1952
 Day Month Year

*4200 Wabasha Ave. S. St. Paul, Minn. 55109
 11200 Wabasha Ave. S. St. Paul, Minn. 55109
 11200 Wabasha Ave. S. St. Paul, Minn. 55109
 11200 Wabasha Ave. S. St. Paul, Minn. 55109*

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes No

36.2 Please list their names and addresses:

~~_____~~ } *Rain*
~~_____~~ } *St. Paul, Minn.*
~~_____~~

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

38. In your opinion what do you think the object was and what might have caused it?

Low flying aircraft

39. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

40. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? _____

41. Please give the following information about yourself:

NAME [Redacted] Last Name [Redacted] First Name [Redacted] Middle Name _____

ADDRESS [Redacted] Street [Redacted] City [Redacted] Zone [Redacted] State [Redacted]

TELEPHONE NUMBER [Redacted]

Age 49 Sex male

Indicate any additional information about yourself, including any education, which might be pertinent.

[Handwritten note]

42. Date you completed this questionnaire:

22 Day June Month 1960 Year

U.S. AIR FORCE TECHNICAL INFORMATION SHEET
(SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.

DATE

November 20 1960

When looking to the northwest to see "Echo" make its appearance
the object was noticed and it appears to be a star. After we saw it for
several evenings I placed wood stakes, one on a tree see A, and on the ground
the ground see B. Then about 10 minutes the object would
appear on line see C. It would continue to move as it
climbed and then fall off to the right - the north west
it disappeared behind the horizon. As it would get
close to the horizon it seemed to change color from
white, to pale green, to orange.

note:
copy of letter from the Adm. Charles E. ...
is enclosed.

16 November 1960

Dear Mr. [REDACTED]

This will acknowledge your letter of 26 October 1960 concerning the sighting of an unidentified flying object as you watched our "Echo" balloon.

Your letter contained insufficient information for a valid conclusion. Therefore, ask that you fill out the inclosed Air Force questionnaire and forward the completed document to the Commander, Aerospace Technical Intelligence Center, Wright-Patterson Air Force Base, Ohio for their analysis and evaluation.

Sincerely,

Inclosure

LAWRENCE J. TACKER
Lt. Colonel, USAF
Public Information Division

Strategic Air Command
Washington
D. C.

Approximately two months ago I became interested in watching our "Echo" balloon passing over and have tried to continue to observe its flight whenever possible. At the same time I thought that another object was up there but moving very slow. After many nights of clear weather and other people who have also watched this object I will try to describe it to you.

On a clear night it will appear just like a star West by North West from Hurnee, Ill. and about straight West of Sister Bay, Wis. and at about 30° - 55° above the horizon. It appears to wobble in its climb and then pauses for awhile, then it starts the descent to the Northwest until it is out of sight behind the horizon. As it gets closer to the horizon the colors start to vary from a white to pale green, red, and orange.

Could you offer any information on this.

Sincerely yours

Hurnee, Ill.

Mr. [REDACTED]
[REDACTED]
Gurnee, Illinois

Dear Mr. [REDACTED]

Although we have received reports from other observers of this object which you describe, we have had no official literature concerning it from the involved official government agencies. Therefore it is my guess as well as others that your object is probably the rocket carrier from one of the recent "Discoverer" shots. These rockets are all launched into polar orbits by the U.S. Air Force from Vandenberg Air Force Base, California. Their chief function is to solve the problems of nose cone reentry and subsequent survival preparatory to sending man into space. However, all information about them including their orbital elements is classified information and thus not available. We thank you for your interest.

Yours very truly,

Frank C. Jettner, Jr.

U.S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

<p>1. When did you see the object?</p> <p><u>1</u> / <u>15</u> / <u>1954</u> <small>Day Month Year</small></p>	<p>2. Time of day: <u>12</u> <u>00</u> <small>Hour Minutes</small></p> <p>(Circle One): A.M. or <u>P.M.</u></p>		
<p>3. Time Zone: (Circle One):</p> <table style="width:100%; border: none;"> <tr> <td style="width:50%; border: none;"> a. Eastern b. <u>Central</u> c. Mountain d. Pacific e. a. In front of you b. In back of you c. To your right	d. To your left e. Overhead f. Don't remember		

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

B.1 STARS (Circle One):

- a. None
b. A few
c. Many
d. Don't remember

B.2 MOON (Circle One):

- a. Bright moonlight
b. Dull moonlight
c. No moonlight — pitch dark
d. Don't remember

9. The object appeared:

(Circle One): a. As a light b. Shiny c. Dark d. Don't remember

10. If it appeared as a light, was it brighter than the brightest stars? no

11. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|-------------------------------------|----------------------------------|
| a. Appear to stand still at any time? | <input checked="" type="radio"/> Yes | <input type="radio"/> No | <input type="radio"/> Don't Know |
| b. Suddenly speed up and rush away at any time? | <input type="radio"/> Yes | <input checked="" type="radio"/> No | <input type="radio"/> Don't Know |
| c. Break up into parts or explode? | <input type="radio"/> Yes | <input checked="" type="radio"/> No | <input type="radio"/> Don't Know |
| d. Give off smoke? | <input type="radio"/> Yes | <input checked="" type="radio"/> No | <input type="radio"/> Don't Know |
| e. Change brightness? | <input checked="" type="radio"/> Yes | <input type="radio"/> No | <input type="radio"/> Don't Know |
| f. Change shape? | <input type="radio"/> Yes | <input checked="" type="radio"/> No | <input type="radio"/> Don't Know |
| g. Flash or flicker? | <input checked="" type="radio"/> Yes | <input type="radio"/> No | <input type="radio"/> Don't Know |
| h. Disappear and reappear? | <input type="radio"/> Yes | <input checked="" type="radio"/> No | <input type="radio"/> Don't Know |

12. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: _____

13. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: _____

14. Did the object appear: (Circle One): a. Solid b. Transparent c. Vapor d. Don't Know

15. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|-----|----|----------------|--------------------------------------|----|
| a. Eyeglasses | Yes | No | e. Binoculars | <input checked="" type="radio"/> Yes | No |
| b. Sun glasses | Yes | No | f. Telescope | Yes | No |
| c. Windshield | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | Yes | No | h. Other _____ | | |
