10. BRIEF SUMMARY OF SIGHTING Object came into vision from SW traveling at terrific speed. Viewed at 45° angle W-NW. Appeared white as neon light, seemed like cold light. Disappeared as if light being turned off. No noise.			11. COMMENTS In view of speed and movement it is probable that this was a meteor sighting with refraction accounting for the 45° bend in direction.		

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

21. How large did the object appear to you as compared to an object with which you are familiar? *To me the size of a Jaws Club Pop - but certainly over 100 times like the size of a ball*

22. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? *From my perch on the porch (I was sitting in the SE corner facing W-NW)*

*it would have covered more than a tenth of the "Jaws" picture*

23. Did the object disappear while you were watching it? If so, how? *Yes it disappeared*

*around NW? I thought it would then to enter back on sporadic (night time) figured it would at a 45° angle W-NW*

24. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

*I saw it just approaching the 5 corners of the battery ground tower opposite - about 10:15 that thing came to a stop (or at least it did) appeared more or less as a 45° angle compared to the horizon to bear down a track - as a battery phone was ringing occurred it after a few moments I went to my room to check the time (10:22 PM) but it seemed to have disappeared so I could check the newspapers the next day feeling sure many had seen the object - I got at least 1000 or more of flying saucer*

25. Where were you located when you saw the object?

Was on front porch when object came into view from the SW  
 direction at a height of 1000 ft and N 100 W low speed or dipped  
 and went through W-NW. To me it appeared like a ring of  
 smoke (or gas) about 100 ft wide. It was very bright  
 from near it was blue shape  Cold light eyes closed  
 and saw a number of smaller objects in the same direction  
 that was making a noise. It was not a sound but the shape was  
 like a ring of smoke. The noise was continuous. That's  
 all I saw. I heard a loud noise. I was very surprised  
 because the objects to the left did not seem to be  
 from the direction. For whatever the object looked like  
 it was a ring of smoke on both sides. I saw a ring of smoke  
 on both sides. It was a ring of smoke. (I think it was a ring of  
 smoke. I saw a ring of smoke. I saw a ring of smoke.)  
 The object was still there. I saw a ring of smoke. I saw a ring of smoke.

38. In your opinion what do you think the object was and what might have caused it?

It was a solid object at the time I saw it. It was a light blue  
 electric canopy, in which a light had been suddenly switched  
 on and then off. It appeared to be within two blocks of us. I  
 experienced a crash, as it dipped down. The only sound was the  
 exhaust of a jet plane way up and to the south of us. My  
 wife and I both saw it clearly and we are very much  
 puzzled about all we know.

My wife and I sat on the porch we had been having at Echo  
Mt. noise sat about six feet from me to my south, a patch of  
grass between us and we faced West in a clear night at  
close to 10:15 P.M. P.D. Time. Suddenly we were startled  
by a solid lighted object in the S.W. at about a 30 degree from  
the horizon. To me it appeared as a lighted canopy of a jet  
jet lighter plane streaking north, for the space of time it  
would take me to repeat Mississippi twice it had followed  
a straight horizontal line then it suddenly dipped  
down and disappeared as if a switch had been snapped  
off in a cock pit. I jumped up from my chair as did my  
wife and stared into the NW expecting a crash and  
nothing happened. During this period there had  
been no noise at all. Far away to the S.W. we could  
hear the drone of a plane. We wanted to hear sirens  
then my wife went in and looked at the time (10:22 P.M.)  
The next day the papers reported the crash (that was  
not one). They requested anyone having information  
to report them to C.C.A. I did  
not know this until today. I had just started a  
new job at the time.

Dear Sir

On Sept. 2<sup>nd</sup> My wife & I saw an unusual light or object in the sky. A few minutes after seeing it my wife looked at the clock 10:22 PM. I know no fragment of our imagination saw it. I am enclosing a few notes I made at the time. My delay in writing was due to my vacationing. If you or your wife or anyone else would be glad to discuss it with me in detail.
