10. BRIEF SUMMARY OF SIGHTING Round object with a tail, size reports vary from the size of a pea to half-dollar, color reports vary from bluish-white to dusky red. Tail approx 3-5 times the size of object. No sound. Object reported to have broken up into several fireballs. One report stated that object finally fell into ocean.		11. COMMENTS It is possible that this object was a very slow meteor. However it is more probably a reentry of the 1960 Epsilon vehicle, parts of which reentered during Sep and Oct 1960. Epsilon had an inclination of 64°, therefore the heading would be about 26°.
