Dear Sirs:

This information being going to give you is about 4 months old when I saw them but I have to tell someone about it. The only reason that I did not report this earlier was because I did not know how until I went to the Dept of the Air Force expressed an pamphlet on how to send the information but here it is.

1. Shape - disk
 2. Size - about the size of a silver dollar
 3. Color - ~~orange~~ orange
 4. Number - 2
 5. Formation - like a V right side and upside down & the nose forward then come very close together than the separated.
 6. No discernible features or details
 7. No tail, trail or exhaust
 8. No sound
 9. No unusual features
- B. Description of Course of Objects
1. What first called attention. The bright light light against the night sky.
 2. How did the objects disappear directly to the East. They came from the West. To the East is New York City.
 3. How long was the objects visible. from 10 to 20 seconds.
- ~~How~~ Identifying Information on Observers

1. Civilian

Name [REDACTED]

age 13 at that time

mailing address [REDACTED]
[REDACTED]

Paterson 3, New Jersey

occupation - Student Coatside High School

estimate of reliability - good.

visibility - very good

cloud cover - none

Thank you
