Dear Sir,

I don't know if we are sending
this letter to the right party or not,
if not would you please send it
on for us.

A few of the U.S. families here
got together for a fish bake last night
and observed a bright object
in the sky traveling N-NE
its elevation could not be
determined however it was
very low in comparison to
the moon and stars. The observer
saw the object near 7:00 PM and
on 12/19/60.

by 7:05 pm it was out of sight.
This is local time. Our location
is Masacibo Venezuela.

The date was November 12, 1960

Our question is what was it?

Thanking you in advance.

Report of Unidentified Flying Object (Venezuela)

Hq., North American Air Defense Command
Ent Air Force Base
(Attn: NENT/3/Gen Harris B. Hull)
Colorado Springs, Colorado

1. Reference your letter NENT, Subject: "Report of Unidentified Flying Object," dated 13 December 1960, the information contained in the letter from Mr. [REDACTED], Maracallo, Venezuela, which you forwarded to this Center, has been evaluated. The object sighted by Mr. [REDACTED] and his friends was very probably the United States satellite Echo.
2. It has been definitely established that the passage of Echo over Venezuela on 12 November 1960 occurred at the same time as the reported unidentified object sighting.
3. Mr. [REDACTED]'s description of the object, though sketchy, is similar to descriptions of Echo received at this Center from lay witnesses. The reported direction of travel of the unidentified object matches the direction of motion of the satellite, as seen from Venezuela, at the time of the sighting.
4. Mr. [REDACTED] has been informed that the object sighted by him on 12 November 1960 was probably Echo.
